The Minister's proposal may be adopted by the Contractor, subject to sub-clause 21(4), and subject to the adjacent contractor's acceptance of the same proposal.
- (4) The provisions of the proposal for joint exploitation shall prevail over this Contract, where those provisions do not reduce the financial benefits to the parties under this Contract.

22. MARGINAL AND NON-COMMERCIAL DISCOVERIES

- (1) Where the Contractor determines that oil or Natural Gas Discovery is marginal or non-commercial, the Contractor may propose a modification to this Contract, based on an alternative economic evaluation and after consideration the Minister may accept or reject the proposed modification.

Upon making a marginal Discovery of Natural Gas, the Contractor and the Government shall commence good faith negotiations of revisions to Clause 27 that would be necessary in order to provide the Contractor with project economics that will provide a reasonable Rate of Return.

- (2) The parties agree that unless otherwise agreed, if the Contractor fails to commence the Evaluation of a Petroleum Discovery within Twelve (12) Months following the notice of Discovery, or if within Twelve (12) Months following the completion of an Evaluation work programme, and the Contractor considers the Crude Oil Discovery does not merit development, the Minister may request the Contractor to surrender the area corresponding to such Crude Oil Discovery and the Contractor shall forfeit any rights relating to any production there from. The area subject to such surrender shall not exceed the extension of the discovered accumulation as determined by the structural closure of the prospective horizon and all other relevant available information. Any such surrender by the Contractor shall be credited in accordance with sub-clause 3(3) hereof.

23. NATURAL GAS

- (1) Where Natural Gas is discovered and the Contractor and the Minister agree that it may be economically processed and utilised other than in secondary recovery operations, that processing and utilisation shall follow a Development Plan approved in accordance with clause 20.
- (2) The Contractor shall return associated Natural Gas, not required for use in Petroleum Operations or sold, to the subsurface structure, but if such Natural Gas cannot be economically used or sold or returned to the subsurface structure, the Contractor shall, after expiry of sixty (60) days' notice to the Minister giving reasons why such Natural Gas cannot be economically used or sold or returned to the subsurface structure, be entitled to flare such associated Natural Gas in accordance to good international petroleum industry practice. Notwithstanding anything in this clause to the contrary Natural Gas may be flared at any time if necessary for the conducting of well and production tests and during any emergency.

(3) Where the Contractor does not consider that it is economical to process and utilise associated Natural Gas and where that Natural Gas is not required for use in Petroleum Operations, the Minister may at the field separator, process and utilise that Natural Gas without compensation but the Government shall pay for all costs and expenses related thereto which shall include, but not be limited to, any engineering studies, new fixtures, equipment and installations required for the gathering, transport, processing and utilisation thereof and the operation and maintenance of same shall be at the sole risk, cost and expense of the Government.

(4) Where the Contractor considers that it is economical to produce Natural Gas, the Contractor agrees to sell Natural Gas to the Government to the volume calculated in accordance with sub-clause 29(6) below with other terms of sale, including price, to be agreed.

24. PRODUCTION LEVELS AND ANNUAL PRODUCTION PROGRAMME

(1) The Contractor shall produce Petroleum at the Maximum Efficient Rate in accordance with good international petroleum industry practice.

(3) The Contractor shall endeavour to produce in each Calendar Year the forecast quantity estimated in the annual production programme.

(4) The Crude Oil shall be run to storage (constructed, maintained and operated by the Contractor) and Petroleum shall be metered or otherwise measured as required to meet the purpose of this Contract in accordance with clause 25.

25. MEASUREMENT OF PETROLEUM

(1) The volume and quality of Petroleum produced and saved from the Contract Area shall be measured by methods and appliances customarily used in good international petroleum industry practice and approved by the Minister.

(2) The Minister may inspect the appliances used for measuring the volume and determining the quality of Petroleum and may appoint an inspector to supervise the measurement of volume and determination of quality.

(3) Where the method of measurement, or appliances used therefore, have caused an overstatement or understatement of a share of the production, the error shall

be presumed to have existed since the date of the last calibration of the measurement devices, unless the contrary is shown, and an appropriate adjustment shall be made for the period of error.

- (4) The Minister and the Contractor shall determine the measurement point at which production shall be measured and the respective shares of Petroleum allocated.

26. VALUATION OF CRUDE OIL AND NATURAL GAS

- (1) The value of Crude Oil, for all purposes under this Contract, shall be denominated in United States dollars and shall be calculated each Calendar Quarter as follows -

(a) if there have been sales of Crude Oil produced from the Contract Area to third parties at arm's length during that Calendar Quarter, the value shall be the weighted average per unit price actually paid in those sales, at the F.O.B. point of export or at the point that title and risk pass to the buyer, adjusted for grade, gravity and quality of such Crude Oil as well as for transportation costs and other appropriate adjustments for grade, gravity, and quality of such Crude Oil transaction where the seller and the buyer are independent of one another and do not have, directly or indirectly, any common interest;

(b) if there have been no sales of Crude Oil produced from the Contract Area to third parties at arm's length during that Calendar Quarter, the value shall be the "fair market value" determined as the average per unit prevailing market price, actually paid during that Calendar Quarter in arm's length sales for export under term Contracts of at least ninety (90) days between unrelated purchasers and sellers, for Crude Oil produced in Kenya and for Crude Oil of comparable quality produced in the nearest major Crude Oil producing and exporting country, and adjusted for grade, gravity and quality of such Crude Oil as well as for transportation costs and any other appropriate adjustments.

If necessary, a value of Crude Oil shall be determined separately for each Crude Oil or Crude Oil mix and for each point of delivery.

The value of Crude Oil shall be mutually agreed at the end of each Calendar Quarter and applied to all transactions that took place during the quarter.

If the Minister and the Contractor cannot reach agreement on the value of Crude Oil within thirty (30) days of the end of any Calendar Quarter, such dispute may be submitted for an Expert Determination.

- (2) Pending the determination of the value of Crude Oil for a Calendar Quarter, the value of Crude Oil determined for the preceding Calendar Quarter will be provisionally applied to make calculation and payment during such Calendar Quarter until the applicable value for that Calendar Quarter is finally determined pursuant to sub-clause 26(1). Any adjustment to provisional calculation and payment, if necessary, will be made within thirty (30) days after such applicable value is finally determined.
- (3) Natural Gas shall be valued based on the actual proceeds received for sales, provided that, for sales of Natural Gas between the Contractor and any Affiliate, the value of such Natural Gas shall not be less than the then prevailing fair market value for such sales of Natural Gas taking into consideration, to the extent possible, such factors as the markets, the quality and quantity of Natural Gas and other relevant factors reflected in natural gas pricing. For sales of Natural Gas into the domestic market, the price shall be set in accordance with the provisions of sub-clause 23(5).

PART VI COST RECOVERY, PRODUCTION SHARING, MARKETING AND PARTICIPATION

27. COST RECOVERY, PRODUCTION SHARING, WINDFALL AND INCOME TAX

- (1) Subject to the auditing provisions under clause 30, the Contractor shall recover the Petroleum Costs, in respect of all Petroleum Operations, incurred and paid by the Contractor pursuant to the provisions of this Contract and duly entered in the Joint Account, by taking and separately disposing of an amount equal in value to **a maximum of Sixty (60%) Percent** of all Crude Oil produced from the Contract Area during that Fiscal Year and not used in Petroleum Operations. Such cost recovery Crude Oil is hereinafter referred to as "Cost Oil".
- (2) Petroleum Costs may be recovered from Cost Oil in the following manner:

(a) Petroleum Costs, with the exception of capital expenditures, incurred in respect of the Contract Area, shall be recoverable either in the Fiscal Year in which these costs are incurred and paid or the Fiscal Year in which Commercial Production occurs, whichever is the later; and

(b) capital expenditure incurred in respect of each Development Area shall be recoverable at a rate of 20% based on amortization at that rate starting either in the Fiscal Year in which such capital expenditure are incurred and paid or the Fiscal Year in which Commercial Production from that Development Area commences, whichever is the later.

For the purpose of this clause, "capital expenditure" shall mean the qualifying expenditure, other than "intangible drilling costs", that is

expenditure that has no salvage value, including expenditure on labour, fuel, repairs, maintenance, hauling, mobilization and supplies and materials, other than supplies and materials for well casings or other well fixtures, which is for or incidental to drilling, cleaning, deepening, completing or abandoning wells and is incurred in respect of –

(i) The determination of well locations, geological and geophysical studies, and topographical and geographical surveys preparatory to drilling;

(ii) The drilling, shooting, testing, and cleaning of wells; and

(iii) The clearing, draining and levelling of land, road-building and laying of foundations.

(c) To the extent that, in a Fiscal Year, the Petroleum Costs recoverable according to sub-clauses 27(2) (a) and 27(2)(b) exceed the value of all Cost Oil or Cost Gas for such Fiscal Year, the excess shall be carried forward for recovery by the Contractor in the next succeeding Fiscal Year or Fiscal Years until fully recovered, but in no case after the termination of this Contract.

(d) To the extent that, in a Fiscal Year, the Petroleum Costs recoverable according to sub-clauses 27(2)(a) and 27(2)(b) are less than the maximum value of the Cost Oil or Cost Gas as specified in sub-clause 27(1), the excess shall become part of, and be included in the Profit Oil or Profit Gas as provided for in sub-clause 27(3) hereafter.

(e) For the purpose of valuation of Cost Oil and Cost Gas, the relevant provisions of clause 26 hereof shall apply.

(3) The total Crude Oil produced and saved from the Contract Area and not used in Petroleum Operations less the Cost Oil as specified in sub-clauses 27(1) and 27(2), shall be referred to as the Profit Oil and shall be shared, taken and disposed of separately by the Government and Contractor according to increments of Profit Oil as follows:

Incremental Production Tranches	Govt. Share	Contractor Share
0-30,000 barrels per day	50%	50%
Next 25,000 barrels per day	60%	40%
Next 25,000 barrels per day	65%	35%
Next 20,000 barrels per day	70%	30%
Above 100,000 barrels per day	78%	22%

(a) For the purpose of this sub-clause, increments of Profit Oil shall be calculated by considering the total Crude Oil produced and saved from the Contract Area less the quantity of Cost Oil required to satisfy recoverable costs, expenses and expenditures according to sub-clauses 27(1) and 27(2).

(b) Where two (2) or more reservoirs are sufficiently close so that they utilize the same surface installation, they shall be considered, for the purposes of sub-clause 27(3) (a), as being one (1) Development Area. When making a proposal for the delineation of a Development Area and its associated Development Plan, the Contractor shall consider in priority the option which is the most favourable for the Government in terms of Profit Oil split.

(c) **Windfall Profits**

When the value of crude oil for any calendar quarter calculated in accordance with Clause 26 of the PSC exceeds United States **US\$ 50 per barrel** FOB Mombasa (hereinafter referred to as the (“Threshold Price”) adjusted for the United States of America’s Consumer Price Index (CPI) whose Effective Date will be from the date of the contract execution then a Second Tier Amount is payable by the Contractor to the Government.

The Second Tier Amount will be calculated in respect of each Calendar Quarter according to the following formula:

$R = CSPO \times 26\% \times (V - \text{Threshold Price})$ Where;

R is the Second Tier Amount in US Dollars;

V is the value of Crude Oil in U.S. dollars for that Calendar Quarter calculated in accordance with Clause 26 and expressed in US\$/bbl, provided that V exceeds the Threshold Price; and

CSPO is the Contractor Share of Profit Oil for that Calendar Quarter in bbl calculated pursuant to clause 27(3) (a).

(d) The Second Tier Amount will be calculated within thirty (30) days

following the end of the Calendar Quarter for which it is due. For the purposes of this Contract the Second Tier Amount will be treated as an adjustment to the amount payable as Profit Oil.

- (e) The Threshold Price set forth in this sub-clause 27(3) (c) is **US\$ 50 per barrel** F.O.B Mombasa as of Effective Date and shall be adjusted quarterly as set forth below. The Threshold Price during any Calendar Quarter shall be derived by multiplying the Threshold Price, by the number (hereinafter referred to as the "price index") which is the sum of one (1) and the decimal equivalent of the percentage increase in the United States Consumer Price Index, as reported for the first time in the monthly publication "International Finance Statistics" of the International Monetary Fund, between the month of **Effective Date** and the month when such valuation is calculated
- (4) With respect to sub-clauses 27(1), 27(2) and 27(3), Cost Oil, Cost Gas, Profit Oil and Profit Gas calculations shall be done quarterly on an accumulative basis. To the extent that actual quantities, costs and expenses are not known, provisional estimates of such data based on the adopted annual production work programme and budget under clause 24 shall be used. The account is to be funded on a quarterly basis by the Contractor constituting the Contractor and the Government in proportion to the Contractor's then current Participating Interest under this Contract and out of its share of ongoing Cost Oil, Cost Gas, Profit Oil and Profit Gas attributable to the Contractor and the Government entities, or by cash payment if production is insufficient. A final reconciliation shall be submitted to all Entities and the Government following completion of all abandonment and decommissioning operations and adjustments made in accordance with sub-clause 42(6) below.

(b) Any abandonment and decommissioning cost accruals which have been booked for purposes of removing facilities or assets that the Government decides should not be removed shall be paid by Contractor to Government concurrently with the transfer of ownership of such facility, asset or well to the Government. The Government represents that the transferred funds shall only be used in conjunction with its abandonment and decommissioning operations.

If the operator is unable to obtain such other insurance required by the operating committee, it shall so advise the parties and thereafter, it shall be discharged of its obligation to obtain such insurance.

The operator shall take all reasonable steps to ensure that all contractors (including sub-contractors) performing work in respect of the petroleum operations and the joint property obtain and maintain all insurance required by the law and obtain from their insurers a waiver of subrogation in favour of the parties.

13. The operator may prosecute, defend and settle claims and litigations arising out of the petroleum operations and may compromise or settle such claims or litigations which involve an amount not exceeding the equivalent of one hundred thousand U.S. dollars (U.S. \$100,000) without the approval of the operating committee. Any claim or litigation involving an amount in excess of the equivalent of one hundred thousand U.S. dollars (U.S. \$100,000) shall be reported promptly to the non-operators and a non-operator shall have the right to be represented by its own counsel at its expense in the compromise, settlement or defence of such claims or litigation.

14. The operator shall fulfil the reporting obligations of the Contractor as specified in the [Contract] unless otherwise stipulated in this Participation Agreement and the Contract.

4. - OPERATING COMMITTEE AND WORK PROGRAMMES

1. The parties shall establish an operating committee to supervise and control the petroleum operations. The operating committee shall consist of one representative appointed by each of the Parties provided always that more than one of the Parties may appoint the same representative who shall represent them separately.

Each party shall, as soon as possible after the date of this Participation Agreement, give notice to all the other parties of the name of its representative and of an alternate on the operating committee. Such representative may be replaced, from time to time, by like notice. Representatives may bring to meetings of the operating committee such advisers as they consider necessary. The representative of a Party or,

in the absence of the representative, his alternate, shall be deemed authorized to represent and bind such party with respect to any matter which is within the powers of the operating committee. The representative of the party, which is the operator, shall be the chairman of the operating committee and shall report the proceedings.

2. Except as otherwise provided in this Participation Agreement the powers and duties of the operating committee shall include-

(a) The consideration and determination of all matters relating to general policies, procedures and methods of operation hereunder;

(e) the determination of whether the operator will represent the parties regarding any matters or dealings with the Minister, any other governmental authorities or third parties in so far as the same relate to the petroleum operations, provided that there is reserved to each party the unfettered right to deal with Minister or any other government authorities in respect of matters relating to its own participating interest; and

(f) the consideration and, if so required, the determination of any other matter relating to the petroleum operations which may otherwise be designated under this Participation Agreement for reference to it.

3. The operator shall, when requested by a representative of any party, call a meeting of the operating committee. The operator may do so at any time to keep the parties informed on the petroleum operations.

4. A request to call a meeting of the operating committee shall state the purpose of that meeting and, except in an emergency, the operator shall give the parties at least fifteen (15) days' written notice with an agenda of the meeting, but where a meeting is called in an emergency, the operator shall give as much notice thereof as possible by telephone, telex or telegraph and except with the consent of all the parties, the business of a meeting shall be only that for which it was called.

5. The operator may, instead of calling a meeting, submit matters to the parties by written notice, upon which each party may vote within the period prescribed

in the notice which shall not be less than three (3) days or more than fifteen (15) days from the date notice is received. Failure of a party to vote within the above time limits shall be deemed a negative vote.

6. Each party shall have a voting interest equal to its participating interest. Unless otherwise provided in this Participation Agreement, all decisions of the operating committee shall be made by the affirmative vote of at least two (2) parties holding not less thanper cent (.....%) of the participation interests.

7. The operator shall, at least four (4) months before the end of each year, submit to the parties for approval a participation work programme and budget, which shall contain details of the petroleum operations to be carried out in the next year and allocation of funds therefore including administrative overheads and third party expenditure, in accordance with the accounting procedure attached to this Participation Agreement as exhibit "A".

8. Unless unanimously agreed at least sixty (60) days prior to the beginning of the year, the operator shall call a meeting of the operating committee to discuss and approve a participation work programme and budget for the ensuing year and such work programme and budget shall be approved not later than thirty (30) days prior to the commencement of such year and the decision of the operating committee shall bind the parties. Upon approval of such work programme and budget the operator is hereby authorized and obliged to proceed with it in accordance with such approval.

9. Such approved participation work programme and budget may be reviewed and revised from time to time by the operating committee. Any party may in writing request a review of an approved participation work programme or budget, or of a project within a programme, if that project costs more thanU.S. dollars (U.S. \$.....), and the request shall state the objections of the party, which shall be considered by the operating committee, who may amend the participation work programme or budget.

1. Except as otherwise specifically provided in the Contract and this Participation Agreement, all costs and expenses incurred by the operator in the conduct of operations hereunder shall be borne by the parties in proportion to their respective Participating Interests set forth in Article 2.

2. All costs and expenses incurred by the operator in the conduct of petroleum operations hereunder shall be determined and settled in accordance with internationally accepted accounting practice consistent with the provisions of the Contract and its accounting procedure as complemented by the provisions of exhibit "A" to this Participation Agreement, and the operator shall keep its records of costs and expenses in accordance therewith.

6. PAYMENTS TO OPERATOR

1. A non-operator shall pay its share of an expenditure relating to the petroleum operations, within fifteen (15) days of receipt of the account of the operator.

2. The operator may, upon twenty (20) days' written notice, request a non-operator to advance a share of the estimated expenditure for the following month, stipulating the due date of payment, provided however that such due date of payment shall not be before the first banking day of that month and the operator shall include with such notice an estimate of the cash calls for the next three (3) months. The operator's estimate of expenditure shall not exceed the approved year's budget. The operator may, at any time upon fifteen (15) days' written notice, request additional advances to cover unforeseen expenditure.

3. Cash requirements shall be specified by the operator in the currencies required for the petroleum operations and the non-operators shall advance their shares in the currencies so specified.

4. If any non-operator's advances for a given month exceed its share of cash disbursements for the same month, the next succeeding cash advance, after such determination, shall be reduced accordingly.

However, non-operator(s) may request that excess advances be refunded. The operator shall make such refund within fifteen (15) days after date of such notice.

5. Where a party is in default of payment, the operator and the non-defaulting parties shall have, as security for amounts due hereunder from a defaulting non-operator, a lien on the participating interest share, the interest in material and equipment acquired for the petroleum operations and upon the proceeds from the sale of petroleum, of that non-operator, and a non-operator shall have for amounts due hereunder, a similar lien on the same interests and property of the operator.

6. A lien may be exercised by a non-defaulting party by collecting the amount due from a purchaser of petroleum and the statement of the operator of the amount due shall be proof thereof.

7. A late payment shall attract interest at LIBOR plus.....per cent (..... %) or.....per cent (..... %), whichever is the greater, compounded monthly and calculated from the due date of payment. A payment not received within seventy-two (72) hours of the due date shall accrue interest from the due date and the non-paying party shall be deemed to be in default from the due date of the payment.

8. A party which remains in default for five (5) days shall have no right to vote at any operating committee meeting held during the period of the default but shall be bound by all decisions of the operating committee made during such period, and the defaulting party's participating interest shall be deemed to be vested pro-rata in the non-defaulting parties for voting purpose during the continuation of the default.

9. Where a party fails to pay an amount required to be paid hereunder, and remains in default for ninety (90) days, the participating interest share of the defaulting party may be declared forfeit by the non-defaulting parties, unless the amount due is an advance and the defaulting party provides an irrevocable letter of credit or other security, acceptable to the operator, for the amount due.

10. When the participating interest share of a defaulting party is declared forfeit, the operator shall give notice thereof to all the parties, and that share shall vest rateably, unless otherwise agreed, in the non-defaulting parties without payment of compensation and the defaulting party shall at its sole expense take all steps necessary to vest that share accordingly, and the defaulting party hereby appoints the operator to act as its attorney to execute any and all documents required to effect such transfer. Notwithstanding the transfer of a defaulting party's participating interest share in accordance with the foregoing, the defaulting party shall remain liable for its proportionate share of the commitments incurred before its rights lapsed.

11. Where a party is in default of payment, the remaining parties shall advance the operator on demand a share of that payment, in proportion to the participating interests of those parties. Any payments received from a defaulting party shall be credited to the accounts of the non-defaulting parties who advanced funds on behalf of the defaulting party.

market.

2. Each party shall be responsible for and shall pay its own taxes to the Kenyan authorities on its operations hereunder.

3. It is recognized that a party hereunder may be subject to the laws of its place of incorporation in addition to the laws of Kenya. For United States Federal income tax purposes, each of the parties hereto which is subject to United States Income Tax laws ("U.S. Party") hereby elects to be excluded from the application of all of the provisions of Sub-chapter "K", chapter 1, Sub-title "A", of the United States Internal Revenue Code of 1954, as permitted and authorized by Section 761 of that Code and the regulations promulgated there under. Should there be any requirement that each U.S. Party evidence this election, each U.S. Party agrees to execute such documents and furnish such other evidence as may be required by the United States Federal Internal Revenue Service. Upon the request of any U.S. Party, the Operator shall provide data necessary for filing United States tax returns.

9. - SURRENDERS AND TRANSFERS

1. Any party desiring that all of the participation area be surrendered voluntarily shall notify the other parties in writing accordingly, specifying its reasons thereof, and thereafter:

(a) Each party shall within thirty (30) days after receipt of the notice inform the other parties in like manner whether it concurs in or opposes the proposed surrender;

(b) If all the parties concur in the proposed surrender, the participation area shall be surrendered as soon as possible under the Contract;

(c) If one or more of the parties shall oppose the proposed surrender, the party or parties desiring to surrender shall, upon request by the opposing parties, transfer and convey without warranty of title-free and clear of all liens, charges and encumbrances and without right to compensation, all of its or their interest(s) in the participation area and material left thereon to said opposing party or parties, each in the

proportion that its or their participating interest(s) hereunder bear to the sum of the participating interests of all the opposing parties, or as otherwise agreed by the opposing parties. The transferring party or parties shall bear-

(i) Its or their participating interest share(s) of costs, expenses and liabilities incurred hereunder which are attributable to the participation area for the period prior to the effective date of such transfer of interest;

(ii) Its or their participation interest share(s) of all costs and expenses incurred by the operator after such date under any contracts entered into by the operator in execution of a participation work programme theretofore approved by the operating committee; and

(iii) Its or their participating interest share(s) of any accrued obligations under the contract which are not included rights or other obligations in connection therewith.

(d) A transfer under paragraph (c) above shall be effective as among the parties thirty (30) days after the opposing parties' receipt of the transferring party's first mentioned notice proposing surrender. Thereafter until such transfer has received whatever approvals may be necessary under the provisions of the Contract or applicable law, the transferring Party or parties shall hold at most legal, but not equitable, title to the interest (s) transferred for the benefit of the opposing party or parties. The transferring party or parties receiving the interest(s) transferred shall execute and deliver such documents and do such other acts as may be necessary to give legal effect to such transfer, to obtain all approvals thereof as may be required from the Minister, and otherwise to effectuate the purpose of this paragraph.

(e) Notwithstanding the foregoing, if the operating committee determines thatper cent (.....%) or more of the estimated, discovered and recoverable reserves under the participation area have been produced, no party shall be allowed to surrender or required to transfer interest in this Participation Agreement and the Contract without the unanimous consent of all parties.

2. No transfer of any interest under this Participation Agreement and the Contract shall be made by any party otherwise than in respect of an undivided interest in all or part of its participating interest in this participation Agreement and the Contract, and in accordance with the following provisions of this Article 9.

3. If any party shall receive a bona fide offer for the purchase of all or a portion of an offeree party's participation interest in this Participation Agreement and the participation area which the offeree party is willing to accept, the offeree party shall give notice thereof in writing to the other parties:

(a) Such notice shall set forth the identity of the offeror, the terms and conditions (including monetary and other considerations) offered in good faith, and all

other relevant particulars.

(b) For a period of thirty (30) days next following the receipt of such notice, the other parties shall have an option to purchase the entire interest proposed to be sold on the same terms offered by the offeror, as set forth in the respective offer.

(c) If more than one of the parties should exercise its right to purchase said interest, each shall have the right to acquire such interest in the proportion that the Participating Interest hereunder of such party bears to the sum of the Participating interests of all the parties exercising such right except as they may otherwise agree.

(d) If within such a period of thirty (30) days, none of the other parties shall exercise its rights to purchase said interest, the sale to said offeror may be made under the terms and conditions set forth in the notice given; provided that the sale shall be consummated within six (6) months from the date of such notice and that the sale and any transfer shall be in accordance with the Contract and applicable law.

(e) For the purpose of this paragraph, an offer to purchase shall also include an acceptance of a Contractor's offer to sell.

4. The limitations of Article 9 (3) shall not apply to transfer of a participating interest by a party to an affiliate of such party, or by the Contractor to an acceptable assignee as defined in the Contract, or by the Government to an appointee, or from an appointee to another appointee, nor shall they apply to a transfer of a participating interest effected as a result of merger, consolidation, re-organization or sale of capital stock of the parent company of a Party.

5. Every transfer of a participating interest in the participation area shall be made expressly subject to this Participation Agreement and shall include a corresponding interest in jointly acquired equipment and facilities. No transfer of an interest hereunder shall be effective unless made by an instrument in writing duly executed by the parties thereto in accordance with applicable law, and until the same has received all consents required under this Participation Agreement and the Contract. A transfer shall provide that the transferor remains liable for obligations incurred before the date of transfer and such obligations shall in addition become the obligations of the transferee. Where after the transfer, the transferee or transferor owns a participating interest of less than five per cent (5%), they shall be jointly represented.

6. A transfer other than to an affiliate on an appointee shall be of sufficient financial standing to meet its participating interest share of its obligations under the Contract and this Participation Agreement. In the event of a transfer of a participating interest to an affiliate of a party the transferor party shall remain responsible for the full performance by the affiliate of the obligations undertaken by said party under this Participation Agreement and the Contract, and if such affiliate ceases to be an affiliate, the participating interest shall be transferred back to the party.

7. In this Article, transfer means a transfer, assignment, sale or other disposal of the interest of a party.

10. DISPOSAL OF PRODUCTION

1. Each party shall separately own, take in kind and dispose of its participating interest share of that portion of the petroleum produced and saved from the participation area to which the Contractor is entitled under clause 27 of the Contract.

2. Within six (6) months following the signing of this Participation Agreement, the parties shall, in accordance with the provisions of the Contract and in light of the gathering and transportation facilities available under the adopted development plan, in good faith establish a set of rules governing the scheduling, lifting and other necessary provisions for the crude oil offtakes of the parties, consistent with good international petroleum industry practice, which shall provide, among other things, such detailed terms and procedures as required for-

- (a) Short-term production forecasts;
- (b) Nomination and calculation of entitlements; (c) Scheduling of deliveries;
- (d) Lifting tolerances;
- (e) Under lift, over lift and make-up provisions; (f) Passage of title and risk;
- (g) Penalties assessable to the Parties which cause shut-in or reductions of production; and
- (h) Other related matters.

Whatever is mutually agreed by the Parties shall be deemed to form part of this Participation Agreement.

The above terms and procedures shall apply separately to each grade of crude oil that is segregated and separately stored for off take.

3. The Government may request from time to time that the Contractor purchase all or part of the Government's participating interest share of crude oil. The

Contractor shall use its best efforts to comply with this request but in the event that the Contractor is not able to take such crude oil, then the Contractor will assist the Government in good faith to market such crude oil at the best price, terms and conditions available in the international market for the sale of such crude oil.

4. In the event of production of associated natural gas or of any discovery of natural gas, the parties shall agree upon appropriate procedures for disposal of any natural gas available under this Participation Agreement and the Contract.

11. SOLE RISK OPERATIONS

1. Any party may undertake petroleum operations at sole risk (hereinafter referred to as "sole risk project") in a participation area, subject to the provisions of this Article.

2. The following types of sole risk project may be proposed-

(a) the drilling of a well or the deepening, side-tracking, completing, plugging back, testing or reworking of an existing well drilled for the joint account of the parties, in order to test a formation in which no jointly-owned well has been completed as a well producing or capable of producing petroleum;

(b) The installation of production and transportation facilities.

3. The conduct of a project in a development area may not be the subject of a sole risk notice under this Article until after it has been proposed in complete form to the operating committee for consideration pursuant to Article 4 hereof and has not been approved within the period therein provided.

In the event that such project fails to obtain the requisite approval of the operating committee, then any party may serve notice on the other parties of its intention to carry out that project at sole risk. The other parties may give counter-notice that they wish to participate in the project within sixty (60) days after receipt thereof but, where a drilling rig is on the location and has not been released, the period is reduced to seventy-two (72) hours after receipt thereof. The periods set forth in this Article 11 (3) shall be extended for any period of time mutually agreed by the parties as necessary or desirable for acquiring or developing additional information on the sole risk project.

4. If all the other parties elect to participate in the project identified in the proposing party's notice within the period thereof provided, such project is considered as being approved by the operating committee and the provisions of Article 4 (8) of this Participation Agreement shall apply.

5. In the event that less than all the parties elect to participate in the project, the parties which elected to participate (hereafter referred to as "sole risk parties") shall be entitled to have the sole risk project carried out.

The interest of each sole risk party in a sole risk project shall be in proportion to its participation interest in this Participation Agreement, or in such other proportion as the sole risk parties may agree. Any sole risk project shall be carried out at the sole risk, cost and expense of the sole risk parties in the proportion of their respective interests.

6. A sole risk project shall be carried out by the operator on behalf of the sole risk parties under the provisions of this participation agreement. No sole risk project may be commenced after one hundred and eighty (180) days following the expiration of the notice period prescribed in Article 11 (3), but the operator shall commence work as promptly as reasonably possible if the notice period of seventy two (72) hours, set forth in Article 11 (3), applies. The operator shall complete the sole risk project with due diligence provided that it does not jeopardize, hinder or unreasonably interfere with petroleum operations carried out under the Contract and adopted by the operating committee pursuant to Article 4 of this Participation Agreement.

The sole risk parties may use for the sole risk project any production, handling, processing and/or transporting facilities, which are joint property, subject to a determination by the operating committee as to usage fees, availability of capacity and production compatibility.

7. In connection with any sole risk project-

(a) the sole risk project will be carried out under the overall supervision and control of the sole risk parties in lieu of the operating committee;

(b) the computation of costs and expenses of the sole risk project incurred by the sole risk parties shall be made in accordance with the principles set out in exhibit "A" attached hereto;

(c) the operator carrying out the sole risk project shall maintain separate books, records and accounts (including bank accounts) for the sole risk project which shall be subject to the same right of examination and audit by the sole risk parties;

(d) the costs and expenses of the sole risk project shall not be reflected in the statements and billing rendered by the operator for petroleum operations under the Participation Agreement; and

(e) if the operator is carrying out a sole risk project on behalf of the sole risk parties, the operator shall be entitled to request the sole risk parties in connection with the sole risk project to advance their share of the estimated expenditure and shall not use joint account funds or be required to use its own funds for the purpose of paying the costs and expenses of the sole risk project; furthermore the operator shall not be obliged to commence or, having commenced, to continue the sole risk project unless

and until relevant advances have been received from the sole risk parties.

8. The sole risk parties shall indemnify and hold harmless the other parties against all actions, claims, demands and proceedings whatsoever brought by any third party arising out of or in connection with the sole risk project and shall further indemnify the other parties against all damages, costs, losses and expenses whatsoever directly or indirectly caused to or incurred by them as a result of anything done or omitted to be done in the course of carrying out such sole risk project.

9. Subject to the provision of Article 11 (10) below, the sole risk project, including data and information, is wholly owned by the sole risk parties in accordance with the provisions of the Contract, but the sole risk parties shall keep the other parties informed about the project.

In the event that such project results in an increase of production of petroleum from the participation area, the portion of such increase, which is available to the Contractor, shall be owned solely by the sole risk parties. Each of them shall have the right and obligation to take in kind, and separately dispose of its proportional share of supplementary petroleum production.

10. Any party or parties which are not participating in the sole risk project may, by giving thirty (30) days' notice to the sole risk parties, become participants in such project, at any time after the sole risk parties have recovered from the supplementary petroleum production the following sums of money to which they are entitled on the project:

In the case of a project under Article 11 (2) (a) hereof.....per cent (.....%) of the Sole Risk cost of such project, plus one hundred per cent (100%) of the cost of operating such well incurred by the Sole Risk Parties.

In the case of a project under Article 11 (2) (b) hereof.....per cent (.....%) of the Sole Risk cost of such project, plus one hundred per cent (100%) of the cost of operating such facilities.

The value of the supplementary production to which a Sole Risk Party is entitled shall be the market value in sales at arm's length, determined in accordance with clause 26 of the Contract.

From and after the election of any party or parties to become participants in such project, all relevant wells, facilities, equipment and other property appurtenant thereto shall be owned jointly by the participating parties and each of the participating parties shall be entitled to receive its proportional share of the supplementary petroleum production.

12. CONFIDENTIALITY

The operator shall utilize its best efforts to co- ordinate all such public statements to the end that all Parties may effect simultaneous press releases.

4. The obligations of the parties under this Article 12 are continuing obligations and any party ceasing to be a party to this Agreement shall remain bound by this Article until this Agreement is no longer in force between any remaining parties and the Contract has expired.

13. LIABILITY

1. The parties shall be severally liable in accordance with their respective participating interest to third parties.

2. Where the Government has nominated an Appointee, as defined in clause 28 (1) of the Contract, and the appointee defaults the Government shall be liable.

3. If because of the operation of the joint and several liability provisions

contained in the Contract, any one of the Parties hereto shall be required to pay in full to the Government or any other party, any sum which, if the liability were several, would be required separately from each of the Parties or from one other party only, then the Party(ies) shall notify forthwith and request immediate payment of the Party(ies)' proportionate share according to its Participating interest. If within ten (10) days from receipt of said notice, the other Party(ies) shall fail to make payment as provided above such Party(ies) shall be in default and the provisions of Article 6 above shall apply, this being without prejudice to any other legal remedies available to the non-defaulting Party(ies) against the defaulting Party(ies).

GENERAL PROVISIONS

The purpose of this accounting procedure is to establish equitable methods for determining charges and credits applicable to operations under the Agreement.

It is the intent of the Parties that no Party shall lose or profit by reason of its duties and responsibilities as either operator or as non- operator and that no duplicate charges to the joint account for the same work shall be made.

The parties agree that if any procedure established herein proves unfair or inequitable to any party, the parties shall meet and in good faith endeavour to agree on the changes necessary to correct that unfairness or inequity.

- (i) "The Agreement" means the Participation Agreement, of which this Exhibit forms part,
- (ii)"the Contract" means the production sharing contract to which the Agreement is attached

(iii) Words and expressions defined in the Agreement, the Contract and its appendices have the meanings therein ascribed to them.

1.1.2. In the event of any conflict between the provisions of the Agreement and this exhibit, the provisions of the Agreement shall prevail.

1.1.3. By mutual agreement between the parties, this accounting procedure attached to the Agreement may be revised from time to time by an instrument in writing signed by the parties.

1.2. - STATEMENTS, BILLINGS AND ADJUSTMENTS

1.2.1. The operator shall maintain financial accounts necessary to record in reasonable details the transactions relating to petroleum operations under the Agreement which shall be prepared in accordance with generally accepted standards of the international petroleum industry. The operator shall upon request by the Party furnish a description of its accounting classifications.

1.2.2. Each party to the Agreement is responsible for preparing its own accounting and tax reports and paying of its own tax obligations to meet Kenyan requirements. The operator shall furnish the non-operator(s) with all reports, statements, billings and accounting documents necessary to maintain their own accounting records.

1.2.3. The operator shall bill the non-operator(s) on or before the last day of each month for their proportionate share of expenditure for the preceding month. Such billings shall be accompanied by statements of all charges and credits to the joint account, summarized in reasonable detail by appropriate accounting classifications indicative of the nature thereof, except that items of controllable material and unusual charges and credits shall be detailed.

1.2.4. The operator shall, upon request by non-operator(s) furnish a description of such accounting classifications.

at the expense of, or to the benefit of, the other Parties. It is agreed that any loss or gain to the joint account resulting from the exchange of currency required for operations under the Agreement or from the translations required, shall be charged or credited to the joint account. The operator shall furnish the parties with a description of the procedure applied by the operator to accomplish said translation or exchange of currencies and provide currency exchange data sufficient to enable non-operator(s) to translate the billings to the currency of the non-operator(s) accounts.

1.2.6. Payment of billings by non-operator(s) shall not prejudice the right of any non-operator(s) to protest or question the correctness thereof; however, all bills and statements rendered to non-operator(s) by the operator during any year shall conclusively be presumed to be true and correct after twenty-four (24) months following the end of any such year, unless within the said twenty-four (24) month period a non-operator takes written exception thereto and makes claim on the operator shall be made unless it is made within the same prescribed period. 1.3.1. If operator so requests, non-operator(s) shall advance to the operator the non-operator(s)' share of estimated cash requirements for the succeeding month's operation in accordance with Article 6 of the Agreement. Operator shall make written request for the advance to non-operator(s) at least twenty (20) days prior to the first banking day of such succeeding month. The advance shall not be due and payable before the first banking day of the month for which the advance is requested. The request shall set out the funds in the currencies to be expended as estimated by the operator to be required. The non-operator(s) shall on or before the due date make corresponding advances in the currencies requested by depositing such funds to operator's account at a bank as may be from time to time designated by the operator.

1.3.2. Should the operator be requested to pay any large sums of money for operations under the Agreement, which were unforeseen at the time of providing the non-operator(s) with said monthly estimates of its requirements, the operator may make a written request of the non-operator(s) for special advances covering the non-operators' share of such payments. Non-operator(s) shall advance to operator their share of such advances within fifteen (15) days after date of such notice.

1.3.3. If non-operators' advances exceed their share of actual expenditure, the next succeeding cash advance, after such

determination, shall be reduced accordingly. However, non-operator(s) may request that excess advances be refunded. The operator shall make such refund with fifteen (15) days after the date of such notice.

1.3.4. If non-operators' advances are less than their share of actual expenditure, the deficiency shall, at operator's option, be added to subsequent cash advance requirements or be paid by non-operators within fifteen (15) days following operator's billing to non-operator(s) of such deficiency.

1.3.5. If the operator does not request non-operator(s) as provided in sub-part 1.3.1., to advance their share of estimated cash requirements, non-operator(s) shall pay their share of actual expenditure within fifteen (15) days following date of operator's billing.

1.3.6. Payments of advances or billings shall be made on or before the due date; and if not so paid, the unpaid balance shall be treated as provided under Article 6 of the Agreement.

1.4. - AUDITS

1.4.1. A non-operator, upon at least thirty (30) days' advance written notice to the operator and other non-operator(s), shall have the right at its sole expenses to audit the joint account and related records for any year or portion thereof within the twenty-four (24) month period following the end of such year; however, the conducting of an audit shall not extend the time for the taking of written exception to and the adjustment of accounts as provided for in sub-part 1.2.5. The operator shall make every reasonable effort to co-operate with the non-operators, and the non-operators shall make every reasonable effort to conduct audits in a manner which will result in a minimum of inconvenience to the operator.

1.4.2. All adjustments resulting from an audit agreed between the operator and the non-operator conducting the audit shall be rectified promptly in the joint account by the operator and reported to the other non-operator. Any unresolved dispute arising in connection with an audit shall be referred to arbitration in accordance with Article 15 of the Agreement.

1.4.3. Except as otherwise provided in the Contract, the cost of any audit or verification of the joint account that is for the benefit of all parties shall be chargeable to the joint account if the parties mutually agree.
