

ANNEX A
AGREEMENT AREA
Erbil Geological Structure

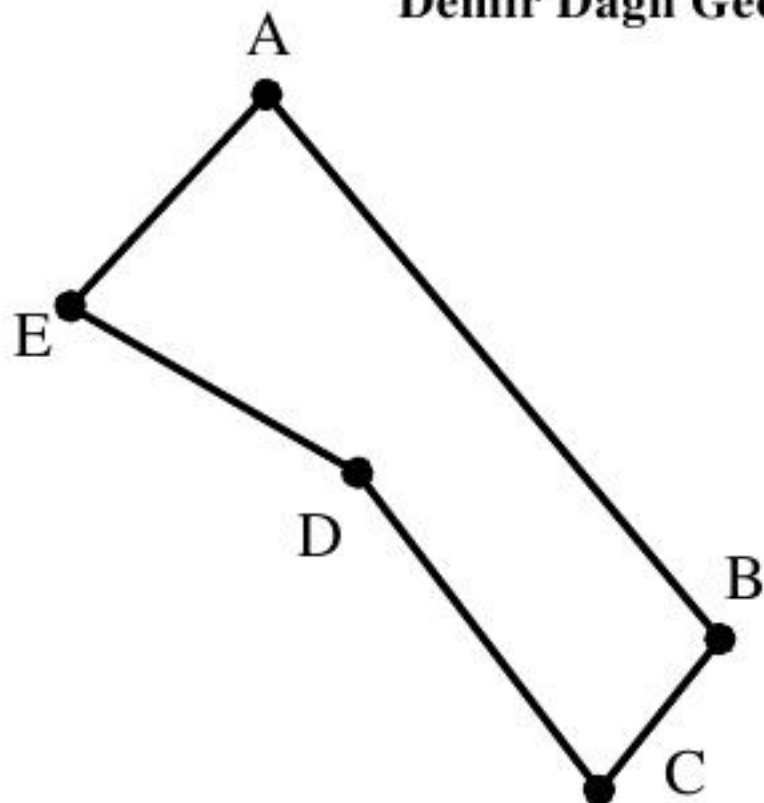

Agreement Area Coordinates;

A:	392,000E	4,036,500N
B:	416,000E	4,020,000N
C:	411,000E	4,016,500N
D:	397,000E	4,018,000N
E:	383,000E	4,030,000N

Area: 313 km²

The Agreement Area shall include all of the Erbil geological subsurface structure. If the exploration programme under this Agreement demonstrates that the geological structure extends beyond the coordinates described herein, then Contractor will request KRG to include the extended area, provided such extended area is not part of an agreement area under any other Production Sharing Agreement or any other type of agreements. KRG will consider such request positively.

ANNEX A (Cont.)
CONTINGENT AGREEMENT AREA
Demir Dagh Geological Structure

Agreement Area Coordinates;

A:	382,400E	4,017,000N
B:	405,000E	3,990,000N
C:	399,000E	3,983,000N
D:	387,000E	3,998,500N
E:	372,800E	4,006,700N

Area: 348 km²

The Agreement Area shall include all of the Demir Dagh geological subsurface structure. If the exploration programme under this Agreement demonstrates that the geological structure extends beyond the coordinates described herein, then Contractor will request KRG to include the extended area, provided such extended area is not part of an agreement area under any other Production Sharing Agreement or any other type of agreements. KRG will consider such request positively.
