- 3.5** The provisions of Articles 3.2 (a), (b) and (c) and Article 3.3 so far as they relate to the duration of the relevant Extension Period to which Contractor will be entitled shall be read and construed as requiring the Minister to give effect to the provisions of Article 8 relating to the time within which Contractor must meet the requirements of that Article.

ARTICLE 4

MINIMUM EXPLORATION PROGRAMME

4.1 Exploration Operations under the Initial Exploration Period shall begin as soon as practicable and in any case not later than sixty (60) Days after the Effective Date.

4.2 GNPC shall, at the request of Contractor, make available to Contractor such records and information relating to the Contract Area as are relevant to the performance of Exploration Operations by Contractor and are in GNPC's possession, provided that Contractor shall reimburse GNPC for licensing the data and for other costs reasonably incurred in procuring or otherwise making such records and information available to Contractor.

4.3 Subject to the provisions of this Article 4, in discharge of its obligations to carry out Exploration Operations in the Contract Area, Contractor shall, during the several phases into which the Exploration Period is divided, carry out the obligations specified hereinafter:

a) Initial Exploration Period: Commencing on the Effective Date and terminating at the end of one (1) year and nine (9) months thereafter.

Description of Contractors Minimum Work Obligation:

- i. Drill one (1) Exploration Well in the Contract Area; and
- ii. Conduct geological and geophysical studies

Minimum Expenditure Obligation: Contractor's minimum expenditure for the work in the Initial Exploration Period shall be thirty two million United States Dollars (US \$32,000,000).

In demonstrating its financial capability, Contractor shall within Ninety (90) days after ratification of this Agreement, pursuant to Article 26.9, furnish GNPC with a Performance Bond/Guarantee from an entity with an Investment Grade credit rating acceptable to GNPC. The Performance Bond/Guarantee should have a value of Twenty-Five Million United States Dollars (US\$25,000,000) to cover for the Minimum Expenditure Obligation for the Initial Exploration Period. The credit rating of the entity providing the Performance Bond/Bank Guarantee shall be from a globally accredited entity (like Moody's, Standard & Poor's (S&P), or Fitch.

b) First Extension Period: Commencing at the end of the Initial Exploration Period and terminating at the end of one and a half (1½) years from the expiration of the Initial Exploration Period or as may be extended under this Agreement.

Description of Contractors Minimum Work Obligation:

- i. Drill one (1) Exploration Well in the Contract Area; and
- ii. Conduct geological and geophysical studies.

Minimum Expenditure Obligation: Contractor's minimum expenditure for the work in the First Extension Period shall be twenty five million United States Dollars (US \$25,000,000).

- i. Drill one Exploration Well; and
- ii. Conduct geological and geophysical studies.

Minimum Expenditure Obligation: minimum expenditure for work in the Second Extension Period shall be twenty five million United States Dollars (US \$25,000,000.)

- 4.4 Work accomplished in any period in excess of the above obligations may be applied as credit in satisfaction of obligations in any other Period. The fulfilment of any Minimum Work Obligation shall relieve Contractor of the corresponding Minimum Expenditure Obligation, but the fulfilment of any Minimum Expenditure Obligation shall not relieve Contractor of the corresponding Minimum Work Obligation. Should Contractor fail to perform its Minimum Work Obligations under Article 4.3(a), Contractor shall pay to GNPC, any unspent amount of the Minimum Expenditure obligation under Article 4.3(a) for the Initial Exploration Period, the First Extension Period or the Second Extension Period, as the case may be.
- 4.5 No Appraisal Wells drilled or seismic surveys carried out by Contractor as part of an Appraisal Programme undertaken pursuant to Article 8 and no expenditure to the extent incurred by Contractor in carrying out such Appraisal Programme shall be treated as discharging the obligations under Article 4.3 above.
- 4.6 If during the Exploration Period, the Contractor drills a well within the Contract Area which penetrates a structure which had been penetrated by a well drilled prior to the Effective Date, the well shall be treated as an Exploration well provided (i) such a structure was not associated with a Discovery as a result of the previous well drilled or (ii) provided the primary target of the well is a deeper structure or another fault block.
- 4.7 The seismic or data processing programme in Article 4.3(a)(ii) and 4.3(b)(ii), when combined with existing data, shall be such as will enable a study of the regional geology of the Contract Area and the preparation of a report thereon with appropriate maps, cross sections and illustrations, as well as a geophysical survey of the Contract Area which, when combined with existing data, shall provide:
- a) a minimum seismic grid adequate to define prospective drill sites over prospective closures as interpreted from data available to Contractor; and
 - b) a seismic evaluation of structural and stratigraphic conditions over the remaining portions of the Contract Area.

4.8 Each Exploration Well shall be drilled at a location and to an objective depth determined by Contractor in consultation with GNPC. Except as otherwise provided in Articles 4.9 and 4.10 below, the minimum depth of each obligatory Exploration Well in Articles 4.3(a), (b) and (c) shall be whichever of the following is first encountered:

- a) the depth of three thousand six hundred (3,600) metres measured from the Rotary Table Kelly Bushing (RTKB);
- b) the depth at which Contractor encounters geologic basement; or
- c) the depth at which discovery is made and tested.

4.9 The minimum depth of one (1) of the obligatory Exploration Wells in Article 4.3 shall be whichever of the following is first encountered:

- a) the depth of three thousand six hundred (3,600) meters measured from the Rotary Table Kelly Bushing (RTKB);
- b) the depth sufficient to penetrate the base of Albian;
- c) the depth at which Contractor encounters geological basement; or
- d) the depth sufficient to penetrate three hundred fifty (350) metres into the Aptian.

4.10 If in the course of drilling an Exploration Well, the Contractor concludes that drilling to the minimum depth specified in Article 4.8 or 4.9 above is impossible, impracticable or imprudent in accordance with International Best Oil Field Practice and engineering practice, then Contractor may plug and abandon the Exploration Well and GNPC shall have the option of either:

- a) waiving the minimum depth requirement, in which case Contractor will be deemed to have satisfied the obligation to drill such Exploration Well; or
- b) requiring Contractor to drill a substitute Exploration Well at a location determined by Contractor in consultation with GNPC and to the minimum depth set forth in Article 4.8 or 4.9 except that if in the course of drilling such substitute Exploration Well Contractor establishes that drilling to the minimum depth specified in Article 4.8 or 4.9 above is impossible, impracticable or imprudent in accordance with accepted petroleum industry drilling and engineering practice, then Contractor may plug and abandon the substitute Exploration Well and will be deemed to have satisfied the obligation to drill one (1) Exploration Well.

The above option shall be exercised by GNPC within sixty (60) Days from notice given by Contractor to GNPC of the completion of the plugging and abandonment of the Exploration Well and failure to exercise such option shall constitute a waiver of the minimum depth requirement pursuant to Article 4.7(a) above.

4.11 During the Exploration Period, Contractor shall have the right to perform additional Exploration Operations subject to the terms of this Agreement, applicable law and approval by the JMC including without limitation performing gravity and magnetic surveys, drilling stratigraphic wells and performing additional geological and geophysical studies, provided the Minimum Work Obligations are completed within the applicable period.

Provided further that Contractor may elect to perform such additional Exploration Operations in the absence of approval by the JMC at their Sole Risk

- f) the Contractor's and/or the Operator's liability to its employees engaged in Petroleum.

7.7 The Contractor shall require its Subcontractors to obtain and maintain insurance against the risks referred to above in Article 7.6 relating mutatis mutandis to such Subcontractors.

7.8 Contractor shall, where adequate insurance policies have not been obtained, indemnify, defend and hold the State and GNPC harmless against all claims, losses and damages of any nature whatsoever, including, without limitation, claims for loss or damage to property or injury or death to persons caused by or resulting from any Petroleum Operations conducted by or on behalf of the Contractor.

- 8.4** Where Contractor indicates that the Discovery merits Appraisal, Contractor shall within one hundred and eighty (180) Days from the date of such Discovery notify the Minister and submit to the Petroleum Commission for approval an Appraisal Programme to be carried out by Contractor in respect of such Discovery. For the avoidance of doubt, unless otherwise instructed by the Petroleum Commission, Contractor shall conduct a separate Appraisal for each Discovery where Contractor indicates that such Discovery merits Appraisal.
- 8.5** In the absence of regulations otherwise governing the process, the Petroleum Commission and the Contractor shall adhere to the procedure set forth in this Article 8.5 in connection with the submission of a proposed Appraisal Programme. The Petroleum Commission shall, within sixty (60) Days of submission of the Appraisal Programme, give the Contractor a notice in writing stating:
- a) whether the Appraisal Programme has been approved (outright or conditionally) or not;
 - b) if not approved, any revisions or improvements required by the Petroleum Commission to be made to the proposed Appraisal Programme, and the reasons thereof; or
 - c) if conditionally approved, the conditions to the approval of the proposed Appraisal Programme, and the reasons thereof.

If the Petroleum Commission does not provide such notice after such sixty (60) Day period such Appraisal Programme shall be deemed not approved.

approval pursuant to this Article 8.7, the Petroleum Commission and the Contractor shall consult within thirty (30) Days of the earlier of (x) the date of the notice by the Petroleum Commission and (y) the date such notice was due with a view to amending the Appraisal Programme to be acceptable to both. Should the Petroleum Commission not agree to so consult or should the Petroleum Commission and the Contractor fail to agree changes required for such approval within fourteen (14) Days following said consultation, Contractor may lodge a complaint with the Minister and request resolution. If the Minister is unable to resolve the matter in a manner agreeable to all the relevant Parties within thirty (30) Days from the date such notification was lodged, the resulting dispute arising out of this Article 8.5 shall be resolved in accordance with Article 24.

If the Petroleum Commission has given a notice in writing pursuant to Article 8.5(b) or 8.5(c), and the Parties cannot agree on the revisions or conditions, then the arbitration panel shall determine whether the Petroleum Commission's revisions or conditions proposed are lawful. In each case, the arbitration panel shall also determine the appropriate damages and/or other award flowing from any such unlawfulness.

- 8.6** Where the issue in dispute referred for resolution pursuant to Article 24 is finally decided in favour of Contractor, the Petroleum Commission shall forthwith give the requisite approval to the proposed Appraisal Programme submitted by Contractor, and where the issue in dispute referred for resolution pursuant to Article 24 is finally decided in favour of the Petroleum Commission, Contractor shall forthwith:
- a) amend the proposed Appraisal Programme to give effect to the final decision rendered under Article 24, and the Petroleum Commission shall give the requisite approval to such revised Appraisal Programme; or
 - b) relinquish the Discovery Area.
- 8.7** Where Contractor seeks to amend an approved Appraisal Programme, it shall submit such amendment to the JMC for review pursuant to Article 6.4(v) before submission to the Petroleum Commission for approval.
- 8.8** Unless Contractor and the Petroleum Commission otherwise agree in any particular case, and subject to any delays incurred under Article 8.5, Contractor shall have a period of two (2) years from the date of Discovery to complete an Appraisal Programme. In the event Contractor requires a period of more than the two (2) years to complete the Appraisal Programme, Contractor shall submit a request to the Petroleum Commission for an extension with a firm programme with timelines to justify the request.
- 8.9** Contractor shall commence an Appraisal Programme within one hundred and fifty (150) Days from the date of approval (or deemed approval) of the Appraisal Programme by the Petroleum Commission. Where the Contractor is unable to commence or otherwise fails to commence Appraisal within one hundred and fifty (150) Days from the date of approval (or deemed approval) of the Appraisal Programme, GNPC shall be entitled to exercise the option provided for in Article

IPA

9.1 to enable prompt Appraisal, unless Contractor has commenced Appraisal or obtained an extension of time for such Appraisal, provided that if Contractor obtains an extension of time for such Appraisal and has not commenced Appraisal prior to the end of such extension, GNPC shall be entitled to exercise the option provided for in Article 9.1 to enable prompt Appraisal.

- 8.10** No later than ninety (90) Days from the date on which said Appraisal Programme relating to the Discovery is completed Contractor will submit to the Minister and Petroleum Commission a report containing the results of the Appraisal Programme. Such report shall include all available technical and economic data relevant to a determination of commerciality, including, but not limited to, geological and geophysical conditions, such as structural configuration, physical properties and the extent of reservoir rocks, areas, thickness and depth of pay zones, pressure, volume and temperature analysis of the reservoir fluids; preliminary estimates of Crude Oil and/or Natural Gas reserves; recovery drive characteristics; anticipated production performance per reservoir and per well; fluid characteristics, including gravity, sulphur percentage, sediment and water percentage and refinery assay pattern.
- 8.11** Not later than ninety (90) Days from the date on which the said Appraisal Programme is completed, Contractor shall, by a further notice in writing, inform the Minister and the Petroleum Commission whether the Discovery in the opinion of Contractor is or is not a Commercial Discovery.
- 8.12** If Contractor fails to notify the Minister as provided in Article 8.1 or informs the Minister that the Discovery is not commercial, then subject to Article 8.22, Contractor shall relinquish such Discovery Area; provided, however, that in appropriate cases, before declaring that a Discovery is not commercial, Contractor shall consult with the other Parties and may make appropriate representations proposing minor changes in the fiscal and other provisions of this Agreement which may, in the opinion of Contractor, affect the determination of commerciality. The other Parties may, where feasible, and in the best interests of the Parties agree to make such changes or modifications in the existing arrangements.
- 8.13** If Contractor pursuant to Article 8.11 informs the Minister that the Discovery is a Commercial Discovery, Contractor shall not later than one hundred and eighty (180) Days thereafter, prepare and submit to JMC, and upon approval by the JMC, the Minister, a Development Plan.
- 8.14** The Development Plan referred to in Article 8.13 shall be based on detailed engineering studies and shall include:
- a) Contractor's proposals on the delineation of the proposed Development and Production Area and for the development of any reservoir(s), including the method for the disposal of Associated Gas in accordance with the provisions of Part IV of Article 14.15;

- m) Contractor's proposals with respect to the procurement of goods and services and services obtainable in Ghana;
- n) Contractor's technology transfer plan;
- o) Contractor's plan for training and employment of Ghanaian nationals which shall contain among other things reasonable procedures for identifying Ghanaian personnel for all employment vacancies in Ghana;
- p) the timetable for effecting Development Operations; and

8.15 The date of the Minister's approval of the Development Plan shall be the Date of Commercial Discovery.

8.16 The Minister shall, within ninety (90) Days following submission of the Development Plan, give Contractor a notice in writing stating:

- i. whether or not the Development Plan as submitted has been approved or conditionally approved;
- ii. if not approved, any revisions proposed by the Minister to the Development Plan as submitted, and the reasons thereof;
- iii. if conditionally approved, any conditions pursuant to which the Development Plan is approved.

If the Minister fails to approve the Development Plan within the ninety (90) Day time period described above then the Development Plan shall be deemed not approved.

Where the Minister notifies the Contractor that the Development Plan is not approved the Parties shall within a period of thirty (30) days from the date of such notice by the Minister consult (and shall include GNPC in such consultations) with a view to amending the Development Plan to be acceptable to both. Should the Minister not agree to so consult or should the Minister and the Contractor fail to agree changes required for such approval within fourteen (14) days following said thirty (30) day period, the resulting dispute arising out of this Article 8.16 shall be resolved in accordance with Article 24.

If the Minister has given a notice in writing pursuant to this clause (ii) or (iii) above, and the Parties cannot agree on the revisions or conditions, then the arbitration panel shall determine whether the Minister's revisions or conditions proposed are lawful.

- 8.17** Where the issue in dispute referred for resolution pursuant to Article 24 is finally decided in favour of Contractor, the Minister shall forthwith give the requisite approval to the Development Plan submitted by Contractor.
- 8.18** Where the issue in question referred for resolution pursuant to Article 24 is finally decided in favour of the Minister in whole or in part, Contractor shall forthwith:
- a) amend the proposed Development Plan to give effect to the final decision rendered under Article 24, and the Minister shall give the requisite approval to such revised Development Plan;
 - b) subject to Article 8.20 below relinquish the Discovery Area.
- 8.19** Notwithstanding the relinquishment provisions of Articles 8.3 and 8.12 above, if Contractor indicates that a Discovery does not at the time of the Discovery merit Appraisal, or after Appraisal does not appear to be a Commercial Discovery but may merit Appraisal or potentially become a Commercial Discovery at a later date during the Exploration Period, then Contractor need not relinquish the Discovery Area and may continue its Exploration Operations in the Contract Area during the Exploration Period; provided that the Contractor shall explain to the Minister and the Petroleum Commission, what additional evaluations, including Exploration work or studies, are or may be planned in order to determine whether subsequent Appraisal is warranted or that the Discovery is a Commercial Discovery and the Minister shall approve of any such non relinquishment. Such evaluations shall be performed by Contractor according to a specific time table to be approved by the JMC and Petroleum Commission, subject to Contractor's right of earlier relinquishment of the Discovery Area. After completion of the evaluations, Contractor shall make the indications called for under Article 8.3 or 8.12 and either proceed with Appraisal, confirm the Discovery or relinquish the Discovery Area.
- 8.20** In any case, if a Discovery is made in the Initial Exploration Period or First Extension Period, the Contractor shall by the end of the subsequent phase (that is the First Extension Period or Second Extension Period as the case may be), take a decision to appraise the Discovery or relinquish such Discovery. Likewise, if the Contractor has completed the Appraisal of a Discovery in the Initial Exploration Period or First Extension Period, the Contractor shall by the end of the subsequent phase (that is, the First Extension Period or Second Extension Period as the case may be), take a decision to determine commerciality or relinquish such Discovery. In any event, if at the end of the Exploration Period the Contractor has neither indicated its intent to proceed with an Appraisal Programme nor declared the Discovery to be a Commercial Discovery, then the Discovery Area shall be relinquished.
- 8.21** Upon completion of an Appraisal Programme and before Contractor makes a determination that any Discovery is not a Commercial Discovery, Contractor

may consult with the other Parties and may make appropriate representations proposing minor changes in the fiscal and other provisions of this Agreement which may, in the opinion of Contractor, affect the determination of a Commercial Discovery. The other Parties may, agree to make such changes or modifications in the existing arrangements. In the event the Parties do not agree on such changes or modifications, then subject to Articles 8.19 and 8.20, Contractor shall relinquish the Discovery Area.

8.22 Nothing in Articles 8.3, 8.12, 8.19, or 8.20 above shall be read or construed as requiring Contractor to relinquish:

- a) any area which constitutes or forms part of another Discovery Area in respect of which:
 - i. Contractor has given the Minister the Petroleum Commission and GNPC a separate notice stating that such Discovery merits Appraisal; or
 - ii. Contractor has given the Minister a separate notice indicating that such Discovery is a Commercial Discovery; or
- b) any area which constitutes or forms part of a Development and Production Area.

8.23 For the avoidance of doubt, where Contractor makes a Discovery after the expiration of the Exploration Period Contractor shall notify the Minister of such Discovery pursuant to Article 8.1 and, surrender such Discovery to GNPC.

8.24 In the event a field extends beyond the boundaries of the Contract Area, the Minister may require the Contractor to exploit said field in association with the third party holding the rights and obligations under a unitization agreement covering the said field (or with GNPC as the case may be). The exploitation in association with said third party or GNPC shall be pursuant to a unitization agreement and in accordance with good unitization and engineering principles and in accordance with International Best Oil Field Practice. If Contractor and said third party are unable to agree the terms of a unitization agreement in accordance with the Minister's directive, Contractor shall notify the Minister in writing and the Minister may give appropriate directions to Contractor and the said third party or GNPC as to how the matter may be resolved.

8.25 All notices, reports or other documents required to be submitted to the Minister under this Article 8 shall be copied to the Petroleum Commission.

ARTICLE 9

SOLE RISK

- 9.1** Subject to Article 8.2, GNPC may notify Contractor that it will at its Sole Risk, commence to appraise a Discovery, provided that within thirty (30) days of such notification from GNPC, Contractor may elect to commence to appraise that Discovery within its Work Programme (whether as a joint operation of the Contractor Parties or a sole operation of a Contractor Party).
- 9.2** Where an Appraisal undertaken under Article 9.1 at the Sole Risk of GNPC results in a determination that a Discovery is a Commercial Discovery, Contractor may develop the Commercial Discovery upon reimbursement to GNPC of all expenses incurred in undertaking the Appraisal and after arranging with GNPC satisfactory terms for the payment of a premium equivalent to five hundred per cent (500%) of such expenses. Such premium shall not be reckoned as cost of Petroleum Operations for the purpose of the Accounting Guide. In the event that Contractor declines to develop said Discovery, Contractor shall relinquish the Development and Production Area established by the Appraisal Programme conducted by GNPC under Article 9.1.
- 9.3** During the Exploration Period GNPC may, at its Sole Risk, require Contractor to continue drilling to penetrate and test horizons deeper than those contained in the Work Programme of Contractor or required under Article 4. GNPC may also at its Sole Risk require the Contractor to test a zone or zones which Contractor has not included in Contractor's test programme. Notice of any such requirement shall be given to Contractor in writing as early as possible prior to or during the drilling of the relevant well, but in any case not after Contractor has begun work to complete or abandon the well. The exercise by GNPC of this right does not prevent Contractor from complying with its work obligations under Article 4.3.
- 9.4** At any time before commencing such deeper drilling under Article 9.3 above, Contractor may elect to incorporate the required drilling in its own Exploration Operation, in which case any resulting Discovery shall not be affected by the provisions of this Article.
- 9.5** Where any Sole Risk deeper drilling required pursuant to this Article 9 results in a Discovery, GNPC shall have the right, at its Sole Risk, to Appraise, develop, produce and dispose of all Petroleum from such Discovery and if it desires to do so shall conduct such Sole Risk operations unless GNPC proposes otherwise and Contractor agrees. Provided however that if at the time such Petroleum is tested from the producing horizon in a well, Contractor's Work Programme includes a well or wells to be drilled to the same producing horizon, and provided that the well or wells drilled by Contractor result(s) in a Petroleum producing well producing from the same horizon, Contractor shall, after reimbursing GNPC for all costs associated with its Sole Risk deeper drilling in said well and after arranging with GNPC satisfactory terms for the payment of a premium equivalent to five hundred per cent (500%) of such expenses, have the right to include production from that well in its total production for the purposes of establishing a Commercial Discovery, and, if a Commercial Discovery is

subsequently established, to develop, produce and dispose of the Petroleum in accordance with the provisions of this Agreement.

- 9.6** Alternatively, if at the time such Petroleum is tested from a producing horizon in a well pursuant to a Sole Risk operation Contractor's Work Programme does not include a well to be drilled to said horizon, Contractor has the option to Appraise and /or develop, as the case may be, the Discovery for its account under the terms of this Agreement if it so elects within a period of sixty (60) days after such Discovery. In such case, Contractor shall reimburse GNPC for all expenses incurred by GNPC in connection with such Sole Risk operations, and shall make satisfactory arrangements with GNPC for the payment of a premium equivalent to five hundred percent (500%) of such expenses.
- 9.7** During the term of this Agreement, GNPC shall have the right, at its Sole Risk, and upon six (6) Months prior notice to Contractor, to drill one (1) or two (2) wells per Calendar Year within the Contract Area provided that the work intended to be done by GNPC had not been scheduled for a Work Programme to be performed by Contractor and the exercise of such right by GNPC and the arrangement made by GNPC for undertaking such drilling do not interfere with a Work Programme or prevent Contractor from satisfying its work obligations. Within thirty (30) Days after receipt of such notice Contractor may elect to drill the required well or wells as part of Contractor's Exploration Operations. In the event that a well drilled at the Sole Risk of GNPC in accordance with this Article 9.7 results in a Discovery, GNPC shall notify Contractor and shall have the right to Appraise and develop as the case may be or require Contractor to develop, after GNPC declares a Commercial Discovery, such Commercial Discovery for a mutually agreed service fee, so long as Contractor has an interest in the Contract Area, GNPC taking all the interest risk and costs and hence having the right to all Petroleum produced from the Commercial Discovery, provided however that Contractor has the option to Appraise and/or develop, as the case may be, the Discovery for its account under the terms of this Agreement if it so elects within a period of sixty (60) Days after receipt of GNPC's written notice of such Discovery.
- 9.8** Contractor shall reimburse GNPC for all expenses incurred by GNPC in connection with such Sole Risk operations, and shall make satisfactory arrangements with GNPC for the payment of a premium equivalent to five hundred percent (500%) of such expenses before exercising the option under Article 9.7. Such premium shall not be considered as Petroleum Costs for the purposes of the Accounting Guide.
- 9.9** In the event that Contractor declines to develop the Commercial Discovery or no agreement is reached on the service fee arrangement as provided for in Article 9.8 above, Contractor shall relinquish the Development and Production Area associated with such Commercial Discovery.
- 9.10** Sole Risk operations under this Article 9 shall not extend the Exploration Period nor the term of this Agreement; provided however that Contractor shall complete any agreed programme of work commenced by it under this Article at GNPC's Sole Risk, and subject to such provisions hereof as the Parties shall then

agree, even though the Exploration Period as defined in Article 3 or the term of this Agreement may have expired.

9.11 GNPC shall indemnify and hold harmless Contractor against all actions, claims, demands and proceedings whatsoever brought by any third party or the State, arising out of or in connection with Sole Risk operations under this Article 9, unless such actions, claims, demands and proceedings are caused by Contractor's negligence or wilful misconduct.

ARTICLE 10
SHARING OF CRUDE OIL

- 10.1** Gross Production of Crude Oil from each Development and Production Area shall (subject to a Calendar Year adjustment developed under the provisions of Article 10.7) be distributed amongst the Parties in the following sequence and proportions:
- a) Twelve and a half (12 ½%)** of the Gross Production of Crude Oil shall be delivered to the State as ROYALTY, pursuant to the provisions of the Petroleum Law. Upon notice to Contractor, the State shall have the right to elect to receive cash in lieu of its royalty share of such Crude Oil. The State's notice shall be given to Contractor at least ninety (90) days in advance of each lifting period, such periods to be established pursuant to the provisions of Article 10.7. In such case, said share of Crude Oil shall be delivered to Contractor and it shall pay to the State the value of said share in cash at the relevant weighted average Market Price for the relevant period as determined in accordance with Article 11.7;
 - b)** After distribution of such amounts of Crude Oil as are required pursuant to Article 10.1 (a), the amount of Crude Oil, if any, shall be delivered to GNPC to the extent it is entitled for Sole Risk operations under Article 9;
 - c)** After distribution of such amounts of Petroleum as are required pursuant to Articles 10.1(a) and 10.1(b), the remaining Crude Oil produced from each Development and Production Area shall be distributed to Contractor and, subject to Article 10.1(e) below, to GNPC on the basis of their respective Participating Interests pursuant to Article 2;
 - d)** The State's AOE (as defined under Article 10.2), if any, shall be distributed to the State out of the Contractor's share of Crude Oil determined under Article 10.1 (c). The State shall also have the right to elect to receive cash in lieu of the AOE share of Crude Oil accorded to it pursuant to Article 10.2. Notification of said election shall be given in the same notice in which the State notifies Contractor of its election to receive cash in lieu of Crude Oil under Article 10.1(a). In such case, said share shall be delivered to Contractor and it shall pay to the State the value of said share in cash at the relevant weighted average Market Price for the relevant period as determined in accordance with Article 11.7;
 - e)** In the event that GNPC has failed to pay any amounts due to Contractor pursuant to Article 15.3 of this Agreement (such amounts, together with interest thereon in accordance with Article 26.5 being hereinafter called "**Default Amounts**") and for so long as any such Default Amount remain unrecovered by Contractor, an amount of Crude Oil shall be delivered to GNPC sufficient in value to reimburse it for its share of Production Costs paid by it to that date, until such share of Production Costs has been fully reimbursed to it, after which a volume of Crude Oil shall be delivered to

Contractor equivalent in value to the outstanding amounts of the aforesaid Default Amounts until such Default Amounts are fully recovered by Contractor. The value of the Crude Oil for the purpose of this Article 10.1(e) shall be the Market Price determined pursuant to Article 11.7.

10.2 At any time, the State shall be entitled to a portion of Contractor's share of Crude Oil then being produced from each separate Development and Production Area (hereinafter referred to as "Additional Oil Entitlements" or "AOE") on the basis of the after-tax inflation-adjusted rate of return ("ROR") which Contractor has achieved with respect to such Development and Production Area as of that time. Contractor's ROR shall be calculated on its NCF and shall be determined separately for each Development and Production Area at the end of each Month in accordance with the following computation:

a) Definitions:

"NCF" means Contractor's net cash flow for the Month for which the calculation is being made, and shall be computed in accordance with the following formula:

$$\text{NCF} = x - y - z$$

where

"x" equals all revenues received during such Month by Contractor from the Development and Production Area, including an amount computed by multiplying the amount of Crude Oil taken by Contractor during such Month in accordance with Articles 10.1 (c) and 10.1(e); excluding such Crude Oil taken by Contractor for payment of interest in respect of Petroleum Costs incurred by Contractor on GNPC's behalf, by the Market Price applicable to such Crude Oil during the Month when lifted, plus any other proceeds specified in the Accounting Guide received by Contractor, including, without limitation, the proceeds from the sale of any assets to which Contractor continues to have title. For the avoidance of doubt, "x" shall not include revenues from Crude Oil lifted by Contractor which is part of another Party's entitlement (e.g. Royalty, AOE Oil delivered to Contractor because the State has elected to receive cash in lieu of Crude Oil, Crude Oil purchased by Contractor from GNPC or the State) but shall include revenues from Crude Oil owned by Contractor but lifted by another Party (e.g. Crude Oil purchased by GNPC or the State from Contractor).

"y" equals one-twelfth (1/12) of the income tax paid by the Contractor to the State with respect to the Calendar Year in respect of the Development and Production Area. If there are two (2) or more Development and Production Areas, the total income tax paid by Contractor in accordance with the Petroleum Income Tax Law shall for purposes of this calculation be allocated to the Development and Production Area on the basis of hypothetical tax calculations for the separate Development and Production Areas. The hypothetical tax calculation for each Development and Production Area shall be determined by allocating the total amount of tax incurred for each Calendar Year by Contractor under the Petroleum Income Tax Law to each Development and Production Area based on the ratio that the chargeable income from a given Development and Production Area bears to the total chargeable income of Contractor. The chargeable income of Contractor is determined under section 2 of the Petroleum Income Tax Law and the chargeable income of a Development and Production Area shall be calculated by deducting from the gross

income derived from or allocated to that Area those expenses deductible under section 3 of the Petroleum Income Tax Law which are reasonably allocable to that Area and with respect to the Development and Production Area with the earliest date of Commercial Production, those expenses deductible under the said section 3 of the Petroleum Income Tax Law which are not attributable to any Development and Production Area.. A negative chargeable income for an Area shall be treated as zero for purposes of this allocation and not more (or less) than the total income tax paid by Contractor shall be allocated between the Areas.

"z" equals all Petroleum Costs specified in the Accounting Guide and expended by Contractor during such Month or with respect to abandonment costs, those calculated in accordance with Article 12.9 or actually incurred, as the case may be, with respect to the Development and Production Area, including any Petroleum Costs paid by Contractor on GNPC's behalf, and not reimbursed by GNPC within the Month, provided that all Petroleum Costs for Exploration Operations not directly attributable to a specific Development and Production Area shall for purposes of this calculation be allocated to the Development and Production Area having the earliest date of Commencement of Commercial Production. Where Petroleum Costs for Exploration Operations are not directly attributable to a specific Development and Production Area during a Month, but are directly attributable to a subsequently delineated Development and Production Area, then Contractor may elect either to maintain the original allocation or reallocate such Petroleum Costs to the newly delineated Development and Production Area to which they are directly attributable and provided further that for the purpose of the ROR calculation Petroleum Costs shall not include any amounts in respect of interest on loans obtained for the purposes of carrying out Petroleum Operations.

"FAn", "SAn", "TAn" "YAn" and "ZAn" means First Account, Second Account, Third Account, Fourth Account and Fifth Account, respectively, and represent amounts as of the last Day of the Month in question as determined by the formulae in (b) below.

"FAn-1", "SAn-1", "TAn-1", "YAn-1" and "ZAn-1", respectively, mean the lesser of (i) the FAn, SAn, TAn, YAn or ZAn, as the case may be, as of the last day of the Month immediately preceding the Month in question, or (ii) zero. Stated otherwise, FAn-1 shall equal FAn as of the last Day of the Month immediately preceding the Month in question if such FAn was a negative number, but shall equal zero if such FAn was a positive number. Likewise, SAn-1 shall equal SAn as of the last Day of the Month immediately preceding the Month in question if such SAn was a negative number, but shall equal zero if such SAn was a positive number. Likewise TAn-1 shall equal TAn as of the last Day of the Month immediately preceding the Month in question if such TAn was a negative number, but shall equal zero if such TAn was a positive number. Likewise, YAn-1 shall equal YAn as of the last Day of the month immediately preceding the Month in question if such YAn was a negative number, but shall equal zero if such YAn was a positive number. Likewise, ZAn-1 shall equal ZAn as of the last day of the month immediately preceding the Month in question if such ZAn was a negative number, but shall equal zero if such ZAn was a positive number. In the ROR calculation for the first Month of Petroleum Operations, FAn-1, SAn-1, TAn-1, YAn-1 and ZAn-1 shall be zero.

"i" for the month in question equals one (1) subtracted from the quotient of the United States Industrial Goods Wholesale Price Index ("USIGWPI) for the Month second preceding the Month in question (e.g. use August data for October's computation) as first reported in the International Financial statistics of the International Monetary Fund, divided by the

USIGWPI for the same second preceding Month of the immediately preceding Calendar Year as first reported in the International Financial Statistics of the International Monetary Fund. If the USIGWPI ceases to be published, a substitute U.S. Dollar-based price index shall be used.

"n" refers to the nth Month in question.

"n-1" refers to the Month immediately preceding the nth Month

b) Formulae:

$$FA_n = \left(FA_{n-1} \left(1 + \frac{(0.125 + i)}{12} \right) \right) + NCF$$

$$SA_n = \left(SA_{n-1} \left(1 + \frac{(0.175 + i)}{12} \right) \right) + NCF$$

In the calculation of SAN an amount shall be subtracted from NCF identical to the value of any AOE which would be due to the State if reference were made hereunder only to the FAn.

$$TA_n = \left(TA_{n-1} \left(1 + \frac{(0.225 + i)}{12} \right) \right) + NCF$$

In the calculation of TAn an amount shall be subtracted from NCF identical to the value of any AOE which would be due to the State if reference were made hereunder only to the FAn and SAN.

$$YA_n = \left(YA_{n-1} \left(1 + \frac{(0.275 + i)}{12} \right) \right) + NCF$$

In the calculation of YAn an amount shall be subtracted from NCF identical to the value of any AOE which would be due to the State if reference were made hereunder only to the FAn, SAN and TAn.

$$ZA_n = \left(ZA_{n-1} \left(1 + \frac{(0.325 + i)}{12} \right) \right) + NCF$$

In the calculation of ZAn an amount shall be subtracted from NCF identical to the value of any AOE which would be due to the State if reference were made hereunder only to the FAn, SAN, TAn and YAn.

c) Prospective Application:

The State's AOE measured in barrels of oil will be as follows:

- i. If FAn, SAN, TAn, YAn and ZAn are all negative, the State's AOE for the Month in question shall be zero;

- ii. If FAn is positive and SAn, TAn, YAn and ZAn are all negative, the State's AOE for the Month in question shall be equal to the absolute amount resulting from the following monetary calculation:

eight percent (8%) of the FAn for that Month divided by the weighted average Market Price as determined in accordance with Article 11.7.

- iii. If both FAn and SAn are positive, but TAn, YAn and ZAn are negative, the State's AOE for the Month in question shall be equal to an absolute amount resulting from the following monetary calculation:

the aggregate of eight percent (8%) of FAn for that Month plus twelve percent (12%) of the SAn for that Month all divided by the weighted average Market Price as determined in accordance with Article 11.7.

- iv. If FAn, SAn and TAn are all positive but both YAn and ZAn are negative, the State's AOE for the Month in question shall be equal to the absolute amount resulting from the following monetary calculation:

the aggregate of eight percent (8%) of the FAn for that Month plus twelve percent (12%) of the SAn for that Month plus fifteen percent (15%) of the TAn for that Month all divided by the weighted average Market Price as determined in accordance with Article 11.7.

- v. If FAn, SAn, TAn and YAn are all positive but ZAn is negative, the State's AOE for the Month in question shall be equal to the absolute amount resulting from the following monetary calculation:

the aggregate of eight percent (8%) of the FAn for that Month plus twelve percent (12%) of the SAn for that Month plus fifteen percent (15%) of the TAn for that Month plus twenty two percent (22%) of the YAn for that Month all divided by the weighted average Market Price as determined in accordance with Article 11.7.

- vi. If FAn, SAn, TAn, YAn and ZAn are all positive, the State's AOE for the Month in question shall be equal to the absolute amount resulting from the following monetary calculation:

the aggregate of eight percent (8%) of the FAn for that Month plus twelve percent (12%) of the SAn for that Month plus fifteen percent (15%) of the TAn for that Month plus twenty two percent (22%) of the YAn plus thirty percent (30%) of ZAn for that Month all divided by the weighted average Market Price as determined in accordance with Article 11.7.

- d) The AOE calculations shall be made in U.S. Dollars with all non-dollar expenditures converted to U.S. Dollars in accordance with Section 1.3.5 of Annex 2. When the AOE calculation cannot be definitively made because of disagreement on the World Market Price or any other factor in the formulae, then a provisional AOE calculation shall be made on the basis of best estimates of such factors at the reasonable discretion of Contractor, and such provisional calculation shall be subject to correction and revision upon the conclusive determination of such factors, and appropriate retroactive adjustments shall be made.

The AOE shall be calculated on a monthly basis, with the AOE to be paid commencing with the first Month following the Month in which the FAn, SAn, TAn,

YAnor ZAn, (as applicable) becomes positive. Because the precise amount of the AOE for a Calendar Year cannot be determined with certainty until after the end of that Calendar year, deliveries (or payments in lieu) of the AOE with respect to a Month shall be made during such Calendar Year based upon the Contractor's good faith estimates of the amounts owing, with any adjustments following the end of the Calendar Year to be settled pursuant to the procedures agreed to pursuant to Article 10.2(d). Final calculations of the AOE shall be made within thirty (30) days following the filing by the Contractor of the annual tax return for such Calendar year pursuant to the Petroleum Income Tax Law and this Agreement, and the amount of the AOE shall be appropriately adjusted in the event of a subsequent adjustment of the amount of tax owing on such term.

- 10.3** GNPC shall act as agent for the State in the collection of all Petroleum accruing to the State under this Article 10 and delivery of Crude Oil or payment of the cash equivalent by the Contractor to GNPC shall discharge Contractor's liability to deliver the share of the State.
- 10.4** The State or GNPC, having met the requirements of Article 15.1, may elect, in accordance with terms and conditions to be mutually agreed by the Parties, that all or part of the Crude Oil to be distributed to the State or to GNPC pursuant to this Article shall be sold and delivered by the State or GNPC to Contractor or its Affiliate for use and disposal and in such case Contractor or its Affiliate shall pay to the State or to GNPC, as the case may be, the Market Price for any Crude Oil so sold and delivered. Market Price for purposes of this Article 10.4 shall be the amounts actually realized by Contractor or said Affiliate on its resales of said Crude Oil in arm's length commercial transactions, or for its other resales or dispositions of said Crude Oil, based upon world market prices determined in the manner specified in Article 11.7(b).
- 10.5** Ownership and risk of loss of all Crude Oil produced from the Contract Area which is purchased, and all of its percentage Interest or other Crude Oil lifted, by Contractor shall pass to Contractor at the outlet flange ("Delivery Point") of the marine terminal or other storage facility for loading into tankers or other storage or holding facility or pipeline for loading into tankers or other transportation equipment referred to in Article 11.1.
- 10.6** Subject to the provisions of Article 15 hereof, Contractor shall have the right freely to export and dispose of all the Petroleum allocated and/or delivered to it pursuant to this Article 10.
- 10.7** The Parties shall through consultation enter into supplementary agreements concerning Crude Oil lifting procedures, lifting and tanker schedules, loading conditions, Crude Oil metering, and the settlement of lifting imbalances, if any, among the Parties at the end of each Calendar Year. The Crude Oil to be distributed or otherwise made available to the Parties in each Calendar Year in accordance with the preceding provisions of this Article shall insofar as possible be in reasonably equal monthly quantities.
- 10.8** To assist in the making of the AOE calculation in accordance with Article 10.2, there is attached as Annex 3 to this Agreement.

MEASUREMENT AND PRICING OF CRUDE OIL

- 11.1** Crude Oil shall be delivered by Contractor to storage tanks constructed, maintained and operated in accordance with applicable laws and good oilfield practice. Crude Oil shall be metered or otherwise measured for quantity and tested for quality in such storage tanks for purposes of this Agreement. Any Party may request that measurements and tests be done by an internationally recognized inspection company. Contractor shall arrange and pay for the conduct of any measurement, or test so requested provided, however, that in the case of (1) a test requested for quality purposes and/or (2) a test requested on metering (or measurement) devices, or where the test results demonstrate that such devices are accurate within acceptable tolerances agreed to by the Parties or if not established by the Parties, then in accordance with International Best Oil Field Practice, the Party requesting the test shall reimburse Contractor for the costs associated with the test or tests.
- 11.2** GNPC or its authorized agents shall have the right:
- a) to be present at, and to observe, such measurement of Crude Oil;
 - b) to examine and test whatever appliances are used by Contractor therefor; and
 - c) to install or require Contractor to install devices or equipment, for the purpose of determining the quantity and quality of Crude Oil.
- 11.3** In the event that GNPC considers Contractor's methods of measurement to be inaccurate GNPC shall notify Contractor to this effect and the Parties shall meet within ten (10) Days of such notification to discuss the matter. Where after thirty (30) Days of the notification the Parties cannot agree over the issue they shall refer for resolution under Article 24 the sole question of whether Contractor's method of measuring Crude Oil is accurate and reasonable. Retrospective adjustments to measurements shall be made where necessary to give effect to the decision rendered under Article 24.
- 11.4** If upon the examination or testing of appliances utilized in the measurement and testing of Crude Oil (pursuant to this Article 11), any such appliances are discovered to be defective:
- a) Contractor shall take immediate steps to repair or replace such appliances; and
 - b) subject to the establishment of the contrary, such error shall be deemed to have existed for three (3) Months or since the date of the last examination and testing, whichever occurred more recently.

11.5 In the event that Contractor desires to adjust, repair or replace any measuring appliance, it shall give GNPC reasonable notice to enable GNPC or its authorized agent to be present.

11.6 Contractor shall keep full and accurate accounts concerning all Petroleum measured as aforesaid and provide GNPC with copies thereof on a monthly basis, not later than ten (10) Days after the end of each month.

11.7 The Market Price for Crude Oil delivered to Contractor hereunder shall be established with respect to each lifting or other period as provided elsewhere in this Agreement as follows:

- a) on Crude Oil sold by Contractor in "arm's length commercial transactions"(defined in Article 11.7(c) below), the Market Price shall be the price actually realized by Contractor on such sales;
- b) on sales of Crude Oil by Contractor not in an arm's length commercial transaction, on exports by Contractor without sale or on sales under Article 15.2, the Market Price shall be the price determined by reference to world market prices of comparable Crude Oils sold in arm's length transactions for export in the major world petroleum markets, and adjusted for oil quality, location, timing and conditions of pricing, delivery and payment provided that in the case of sales under Article 15.2 where such sales relate to part only of Contractor's entitlement, prices actually realized by Contractor in sales of the balance of its proportionate share falling within Article 11.7(a) above shall be taken into account in determining Market Price. For purposes of this Article 11.7(b), "comparable Crude Oils" shall mean Crude Oils of similar API gravity, sulphur content, and acidity, and if Contractor cannot identify comparable Crude Oils for the purposes of this Article, the Parties may agree on an alternative method for establishing a comparable Crude Oil.
- c) sales in "arm's length commercial transactions" shall mean sales to purchasers independent of the seller, which do not involve Crude Oil exchange or barter transactions, government to government transaction, sales directly or indirectly to Affiliates, or sales involving consideration other than payment in U.S. Dollars or currencies convertible thereto, or affected in whole or in part by considerations other than the usual economic incentives for commercial arm's length Crude Oil sales;
- d) the price of Crude Oil shall be expressed in U.S. Dollars per barrel, F.O.B. the point of delivery by Contractor;
- e) if Crude Oils of various qualities are produced from the Contract Area, the Market Price shall be determined separately for each type sold and/or exported by Contractor, only to the extent that the different quality grades remain segregated through to the point where they are sold, and if grades of different quality are commingled into a common stream, Contractor and GNPC shall agree on an equitable methodology for assessing relative value for each grade of Crude Oil comprising the blend and shall implement the

JPA

agreed methodology for having the producer(s) of higher quality Crude Oil(s) be reimbursed by the producer(s) of lower quality Crude Oil(s);

- 11.8** Contractor shall provide to GNPC information in accordance with Section 7 of the Accounting Guide on each lifting which shall include the buyer of the cargo, sales basis with respect to benchmark crude oil, the pricing basis, the differential, any deductions and the Market Price determined by it for each lifting not later than thirty five (35) Days after the end of such lifting. For the purposes of this Article 11.8 the obligations of the Contractor Parties comprising Contractor shall be several.

- 11.9** If GNPC considers that the Market Price notified by Contractor was not correctly determined in accordance with the provisions of Article 11.7, it shall so notify Contractor not later than thirty (30) Days after notification by Contractor of such price, and GNPC and Contractor shall meet not later than twenty (20) days thereafter to agree on the correct Market Price.

- 11.10** In the event that GNPC and Contractor fail to agree upon the Market Price, following the meeting(s) referred to in Article 11.9, the dispute may be referred by either party for determination in accordance with Article 24 of this Agreement.

- 11.11** Pending a determination under Article 11.10, the Market Price will be deemed to be the last Market Price agreed or determined, as the case may be, or if there has been no such previous agreement or determination, the price notified by Contractor for the lifting in question under Article 11.8. Should the determined price be different from that used in accordance with the foregoing then the difference plus interest at the Specific Rate as stated in Article 26.5 shall be paid in cash by or to Contractor, as the case may be, within thirty (30) days of such determination.

ARTICLE 12

These rentals shall be pro-rated where the beginning of a Period and the end of a Period or the creation of a Development and Production Area occurs during the course of a Calendar Year.

- 12.2** Save for withholding tax at the rate provided for under applicable law in effect from time to time from the aggregate amount due to a resident Subcontractor or non-resident Subcontractor, Contractor shall not be obliged to withhold any amount in respect of tax from any sum due from Contractor to any Subcontractor in respect of work and services for or in connection with this Agreement.
- 12.3** Contractor shall not be liable for any export tax on Petroleum exported from Ghana and no duty or other charge shall be levied on such exports. Vessels or other means of transport used in the export of Contractor's Petroleum from Ghana shall not be liable for any tax, duty or other charge by reason of their use for that purpose.

- 12.9** The Ghana Income Tax law applicable generally to individuals who are not employed in the petroleum industry shall apply in the same fashion and at the same rates to employees, including Foreign National Employees, of Contractor, its Affiliates and its Subcontractors provided, however, that Foreign National Employees of Contractor, its Affiliates and its Subcontractors, as permitted under Section 28 of the Petroleum Income Tax Law, shall be exempt from income tax and withholding tax liabilities unless they are resident in Ghana for more than thirty (30) continuous days or sixty (60) days in aggregate in any Calendar Year.
- 12.10** Subject to guidelines to be issued by the Minister, the Contractor shall make contributions to a decommission fund based on estimated costs of abandonment. Such contributions shall be allowed as deduction from assessable income from the year of assessment the contributions commenced. In the year of assessment in respect of which decommission has been completed in accordance with an approved decommission plan, the surplus funds shall be treated as chargeable income and subject to tax. The amount left after the tax shall be subject to Additional Oil Entitlement at the highest rate at which the Contractor paid Additional Oil Entitlement during the period of contributions to the relevant decommission fund. Any surplus after payment of the tax and AOE shall revert to the Contractor.
- 12.11** It is the intent of the Parties that payments by Contractor of tax levied by the Petroleum Income Tax Law or any other tax imposed on Contractor qualify as creditable against the income tax liability of each company comprising Contractor in its jurisdiction. Should the fiscal authority involved determine that the Petroleum Income Tax Law does not impose a creditable tax, the Parties agree to negotiate in good faith with a view to establishing a creditable tax on the precondition that no adverse effect should occur to the economic rights of GNPC or the State.
- 12.12** All tax return prepared and payments made by Contractor and its Affiliates or Subcontractors, and Foreign National Employees thereof shall be made in United States Dollars.

ARTICLE 13

- 13.1** Contractor shall for the purpose of this Agreement be entitled to receive, remit with approval with the Bank of Ghana, keep and utilise all the foreign currency obtained from the sale of the Petroleum assigned to it pursuant to this Agreement or purchased hereunder, or from transfers, as well as its own capital, receipts from loans and in general all assets thereby acquired abroad. Upon making adequate arrangements with regard to its commitment to conduct Petroleum Operations, Contractor shall be free to dispose of this foreign currency or assets as it deems fit.
- 13.2** Contractor shall have the right to open and maintain in Ghana bank accounts in foreign currency and Ghanaian currency. No restriction shall be made on the import by Contractor in an authorised manner of funds assigned to the performance of the Petroleum Operations and Contractor shall be entitled to purchase Ghanaian currency through authorised means, without discrimination, at the prevailing rate of exchange; provided, however, that such prevailing rate applicable to Contractor hereunder for all transactions for converting Ghanaian currency into United States Dollars, and vice versa, shall be at a buying or selling, as the case may be, rate of exchange not less favourable to Contractor than that quoted by the State or its foreign exchange control authority to any person or entity on the dates of such conversion (excepting those special rates provided by the State to discretely defined groups for special limited purposes).
- 13.3** Contractor shall be entitled to convert in an authorised manner into foreign currencies of its choice funds imported by Contractor for the Petroleum Operations and held in Ghana which exceeds its local requirements at the prevailing rate of exchange referred to in Article 13.2 and remit and retain such foreign currencies outside Ghana with approval with the Bank of Ghana.
- 13.4** In the event of resale by Contractor or its Affiliate of Crude Oil purchased from the State or GNPC, the State or GNPC shall have the right to request payment for such sales of its share of production to Contractor or its Affiliate to be held in the foreign currency in which the resale transaction took place or in United States Dollars.
- 13.5** Contractor shall have the right to make direct payments outside of Ghana from its home offices outside Ghana, and/or elsewhere, to its Foreign National Employees, and to those of its Subcontractors and suppliers 'not resident in Ghana' (as that term is defined in Section 160 of the Internal Revenue Act 2000 (Act 592)) for wages, salaries, purchases of goods and performance of services, whether imported into Ghana or supplied or performed therein for Petroleum Operations carried out hereunder, in accordance with the provisions of this Agreement, in respect of services performed within the framework of this Agreement, and such payments shall be considered as part of the costs incurred in

Petroleum Operations. In the event of any changes in the location of Operator's home or other offices, Operator shall so notify GNPC and the State.

- 13.6** All payments which this Agreement obligates Contractor to make to GNPC or the State, including income taxes, shall be made in United States Dollars, except as requested otherwise pursuant to Article 13.4 above. All payments shall be made by wire transfer in immediately available funds to a bank to be designated by GNPC or the State, and reasonably accessible to Contractor by way of its being able to receive payments made by Contractor and give a confirmation of receipt thereof, or in such other manner as may be mutually agreed.
- 13.7** All payments which this Agreement obligates GNPC or the State to make to Contractor shall be made in United States Dollars. All payments shall be made by wire transfer (or in such other manner as may be mutually agreed) in immediately available funds to a bank to be designated by Contractor, and reasonably accessible to GNPC or the State by way of its being able to receive payments made by GNPC or the State and give confirmation of receipt thereof.
- 13.8** All payments due to the Contractor in respect of the conduct of petroleum operations in Ghana shall first be paid to the Contractor's bank account in Ghana.

ARTICLE 14

SPECIAL PROVISIONS FOR NATURAL GAS

PART I - GENERAL

All Natural Gas produced by Contractor in association with GNPC under this Agreement shall be the property of the GNPC in accordance with the provisions of Section 16.2 of the Petroleum Law, subject Parts III and IV of this Article.

14.1 Contractor shall have the right to use Natural Gas produced from any Development and Production Area for Petroleum Operations within the Contract Area such as for reinjection for pressure maintenance and/or power generation at no cost.

14.2 Contractor shall not flare nor vent Natural Gas except:

- a) to the extent provided for in an approved Development Plan;
- b) during production testing operations;
- c) when required for operational safety and the safety of persons engaged in Petroleum Operations in accordance with International Best Oil Field Practice; and
- d) as otherwise authorised by the Minister.

14.3 Contractor shall have the right to extract condensate and Natural Gas liquids for disposition under the provisions relating to Crude Oil. Residual Natural Gas remaining after the extraction of condensate and Natural Gas liquids is subject to the provisions of this Article 14.

PART II -ASSOCIATED GAS

14.4 All gas produced in association with Crude Oil is the property of GNPC. The Development Plan of each Development and Production Area shall include a plan of utilization for Associated Gas.

14.5 Based on the principle of full utilisation of Associated Gas and without substantial impediment to Crude Oil production, the Development Plan for each Development and Production Area shall include a plan of utilization for the Associated Gas.

14.6 If Contractor considers that production, processing and utilisation of Associated Gas from any Development and Production Area is non-economic, GNPC or any State appointed agency, body or subcontractor shall have the option to offtake such Associated Gas not used as reinjection for pressure maintenance and/or power generation pursuant to Article 14.2 and or not utilized otherwise as per Article 14.4 at the outlet flange of the gas-oil separator on the crude oil production facility at its Sole Risk for its own use. GNPC and Contractor shall work together to develop the appropriate interface between Gas infrastructure owned by the State and/or GNPC

and Contractor's Development Plan and to that end the Development Plan proposed by Contractor shall include:

- a) a statement of the facilities necessary for the delivery to GNPC (or any State appointed agency, body, or subcontractor) of such Associated Gas;
- b) a plan for the reinjection of such Associated Gas into the reservoir if needed for pressure support;
- c) a plan for power generation; and
- d) a plan for any other utilization.

14.7 The decision of GNPC as to whether or not to exercise the option provided for in Article 14.6 above shall be made in timely manner. In making any such decision and in its subsequent conduct GNPC shall avoid the prevention of, or unreasonable delay to, the orderly start-up or continuation of the production of Crude Oil as envisaged in Contractor's Development Plan.

14.8 If GNPC or any State appointed agency, body, or subcontractor elects to offtake all Associated Gas not used for Petroleum Operations pursuant to Article 14.6 above, GNPC (or any State appointed agency, body, or subcontractor) shall pay for the cost of any additional facilities and any related production cost required for the delivery of the gas to GNPC (or any State appointed agency, body, or subcontractor), and/or for the reinjection of such Associated Gas, provided that;

- a) if Contractor subsequently wishes to participate in GNPC's gas utilisation programme, it shall reimburse GNPC for the costs of such facilities (plus a premium of 300% of costs); or
- b) if Contractor subsequently develops a gas utilisation programme and requires the use of such facilities, Contractor shall pay GNPC an agreed fee for such use.

14.9 If Contractor considers that it may be economic to produce Associated Gas for sale, the provision of Articles 14.12, 14.13 and Part IV below shall apply as to such Associated Gas.

PART III - NON-ASSOCIATED GAS

14.10 Contractor shall have the right to commercialize a Discovery of Non-Associated Gas in the Contract Area in accordance with the provisions of this Agreement. Except as otherwise provided in this Agreement, the terms applicable to a Discovery as provided under Article 8 of this Agreement shall apply to a Discovery of Non-Associated Gas.

14.11 Where Contractor submits notice pursuant to Article 8.1 or Article 8.19 and indicates that the Discovery does not at that time merit Appraisal but may merit Appraisal or additional evaluation at a later date during the Exploration Period or

during the initial period under a new Agreement made pursuant to Article 14.18(a) below, then Contractor does not need to submit a proposed Appraisal Programme to the Petroleum Commission at that time but instead shall indicate to the Petroleum Commission what other studies or evaluations (to be conducted in accordance with a definite time-table) may be warranted before an Appraisal Programme is undertaken. Where Contractor's notice indicates that the Discovery will not merit Appraisal at any time during the Exploration Period or during the initial period under a new Agreement made pursuant to Article 14.19, then Contractor shall relinquish the rights to the Non-Associated Gas within that Discovery Area.

14.12 No later than ninety (90) Days from the date on which the Appraisal Programme relating to a Discovery is concluded, Contractor shall submit to the Minister and Petroleum Commission a report containing the results of the Appraisal Programme (the "Appraisal Report"). The Appraisal Report may conclude that the Discovery merits commercial assessment. If the Appraisal Report concludes that the Discovery merits commercial assessment, Contractor shall submit to the Minister within thirty (30) Days from the date of submission of the Appraisal Report, a programme incorporating a specific timetable for conducting such commercial assessment for approval by the Minister. If the Minister approves this programme, such commercial assessment shall be conducted within the Exploration Period and, if applicable, during the initial period under a new Agreement made pursuant to Article 14.18. Notwithstanding the above, the Minister may approve the conduct of other studies or evaluation, in accordance with a specific timetable, which may be warranted before a commercial assessment is undertaken. Notwithstanding the above, Contractor may also notify the Minister that commercial assessment of the Discovery is not warranted at that time but the Discovery may merit such assessment at a later date during the Exploration Period or during the initial period aforesaid.

14.13 The purpose of the commercial assessment shall be to study the uses to which production from the Discovery Area separately can be devoted and to what extent such uses involve exports or domestic utilization. As part of the assessment, the Parties shall also pursue discussions on the required contractual arrangements for disposition of the Natural Gas to potential purchasers, consumers, infrastructure owners and GNPC. Contractor may undertake the Gas commercialization project at a level that will facilitate the achievement of the Contractor's rate of return, and shall use the State's gas infrastructure if available.

14.14 Contractor may consult with the Minister and GNPC and may make appropriate representations proposing changes in the fiscal and other provisions of this Agreement which may, in the opinion of Contractor, affect the above determinations made pursuant to Articles 14.11 and 8.4. The Minister and GNPC may, where feasible and in the best interests of the Parties, agree to make such changes or modifications in the existing arrangements.

PART IV-NATURAL GAS PROJECTS

14.15 If at any time during the commercial assessment Contractor informs the Minister in writing that the Discovery can be produced commercially, it shall within

(one hundred and eighty) 180 Days submit to the Minister and to GNPC its proposals for an agreement relating to the development of the Discovery on the principles set forth in this Part IV of Article 14. The State and GNPC undertake on receipt of such notice to negotiate in good faith with Contractor with a view to reaching agreement on terms for such production. Any such agreement will be based on terms and fiscal requirements which shall be no less favourable to Contractor than those provided for in Articles 10 and 11 and which take full account of the legitimate interest of the State as the resource owner.

14.16 If at any time during the commercial assessment Contractor has identified a market for the reserves of Non-Associated Gas or any part thereof that can be saved without prejudice to an export project, the Parties shall proceed in good faith to negotiate the appropriate contractual arrangements for the disposition of the Natural Gas. In the event of a market for such Gas, Contractor shall receive for delivery its share of the Natural Gas at a price to be agreed in good faith between GNPC and Contractor, taking into account among other things, the cost of finding and developing the Natural Gas, a reasonable return on exploration and investment and the uses which will be made of the Natural Gas.

14.17 In the event of a Discovery of Natural Gas in the Contract Area which is to be developed and commercially produced, the provisions of this Agreement in respect to interests, rights and obligations of the Parties regarding Crude Oil shall apply to Natural Gas, with the necessary changes in points of detail, except with respect to specific provisions in this Agreement concerning Natural Gas and different or additional provisions concerning Natural Gas which may be agreed by the Parties in the future;

- a) The system for the allocation of Natural Gas among the Parties shall follow the same general format as Article 10.1 provides for Crude Oil, with the exception that the royalty to be delivered to the State on Natural Gas for domestic gas projects shall be at the rate of five per cent (5%) of the annual Gross Production of Natural Gas.
- b) The system for the allocation of Natural Gas for among the Parties shall follow the same general format as Article 10.1 provides for Crude Oil, with the exception that the royalty to be delivered to the State on Natural Gas for International gas export projects shall be at the rate of seven and a half per cent (7½%) of the annual Gross Production of Natural Gas.
- c) The Parties recognise that projects for the Development and Production of Natural Gas are generally long-term in nature for both the project developers and the customers who purchase the Natural Gas. Substantial investments and dedication of facilities require long-term commitments on both sides. This Agreement, being for a specific term of years, may not cover the length of time for which customers in given cases will require commitments on the part of the Parties to this Agreement to deliver their respective shares of the output. Accordingly the Parties agree to consider undertaking such commitments where reasonably required for the efficient and viable development of a Natural Gas project. It is recognised that, unless otherwise agreed by the Parties hereto, Contractor will have no right or interest in

the project or the Natural Gas produced and delivered after the term of this Agreement has expired.

- d) In the event that Contractor or an Affiliate by mutual agreement with GNPC and the State constructs facilities to receive Natural Gas from the Development and Production Area for further processing or for use as a feedstock or fuel in order to convert such a Natural Gas into one or more commercially marketable products, the Contractor shall be entitled to pay GNPC or the State for such gas the price, if any, paid by the State or GNPC under Article 14.17.
- e) The Parties will consider collaboration in obtaining any common external financing available for Natural Gas production possibilities, including project financing; however, each Party shall remain free to finance externally its share of such facilities to the extent it prefers to do so.

14.18 (A) Where Contractor has during the continuance of the Exploration Period made a Discovery of Non-Associated Gas but has not before the end of the Exploration Period declared that Discovery to be commercial, the State and GNPC will, if Contractor so requests, enter into a new Petroleum Agreement with Contractor in respect of the Discovery Area to which that Discovery relates.

- b) the assignment or purported assignment by Contractor of this Agreement contrary to the provisions of Article 25 hereof;
- c) the insolvency or bankruptcy of Contractor, the entry by Contractor into any agreements or composition with its creditors, taking advantage of any law for the benefit of debtors or Contractor's entry into liquidation, or receivership, whether compulsory or voluntary,. Provided that if Contractor is more than one Contractor Party, then the insolvency or bankruptcy of one Contractor Party shall not lead to a termination of the Agreement if the other Contractor Party (or Contractor Parties) will assume all of the rights and obligations of the defaulting Contractor Party under this Petroleum Agreement. In such a case, GNPC shall have the right to acquire a share of the interest of the defaulting Contractor Party proportionate to the total of GNPC's Initial Interest and Additional Interest (if it has been exercised by GNPC prior to the bankruptcy or insolvency of the Contractor Party) (the "GNPC Proportionate Share"), provided that such GNPC Proportionate Share shall not be carried or financed by Contractor. GNPC may exercise this right by notice to all Contractor Parties within thirty (30) days following insolvency or bankruptcy of the defaulting Contractor Party. GNPC's written notice shall state the percentage share of the GNPC Proportionate Share which GNPC proposes to acquire, which shall not exceed a percentage share which is the product of the defaulting Contractor Party's share and the total of GNPC's Initial Interest and Additional Interest (if it has been exercised or is exercisable by GNPC) prior to bankruptcy or insolvency of the defaulting Contractor Party). Upon exercise by GNPC of its rights pursuant to this Article 23.4(c), GNPC shall execute all appropriate transfers, assignments, novations and joint operating agreements which were in place as between or among the Parties, provided further that, if the other Contractor Party, in assuming the interest of the defaulting Contractor Party, elects to assign, the whole or part of, the assumed interest to a third party such assignment shall be subject to GNPC's pre-emptive right under Article 25.5 of this Agreement;
- d) the intentional extraction by Contractor of any minerals (other than Petroleum) of potential economic value other than as authorized under this Agreement, or any applicable law. Where, however, in the course of Petroleum Operations conducted in accordance with accepted International Best Oil Field Practice, Contractor unavoidably extracts any mineral, Contractor shall immediately notify the Minister responsible for mineral resources (other than Petroleum) and surrender such mineral to the State.
- e) failure by Contractor
- i. to fulfill its Minimum Work Obligations pursuant to Article 4.3; save where the Minister has waived the default;
 - ii. to carry out an approved Appraisal Programme undertaken by Contractor pursuant to Article 8, unless Contractor notifies GNPC and the Petroleum Commission that the Appraisal Programme should be amended and submits said amendment to the Petroleum Commission for its review and approval, or unless the Petroleum Commission waive a default by the Contractor;

- iii. to carry out the terms of an approved Development Plan, unless Contractor notifies the Minister that the Development Plan should be amended and submits the said amendment to the Minister for his review and approval, or unless the Minister waives a default by the Contractor in carrying out the terms of the Development Plan.
- f) failure by Contractor to comply with any of its obligations pursuant to Article 7.1 and any other material obligation under this Agreement
- g) failure by Contractor to make any payment of any sum due to GNPC or the State pursuant to this Agreement within thirty (30) Days after receiving notice that such payment is due, unless such default is waived by the GNPC or the State.
- h) failure by Contractor to comply with any decisions reached as a result of any arbitration proceedings conducted pursuant to Article 24 hereof.
- i) failure by Contractor to provide a performance bond in accordance with Article 4.3(a) of this Agreement.

23.5 If GNPC and/or the State believe an event or failure to act as described in Article 23.3 has occurred, a written notice shall be given to Contractor describing the event or failure. Contractor shall have thirty (30) Days from receipt of said notice to commence and pursue remedy of the event or failure cited in the notice. If after said thirty (30) Days Contractor has failed to commence appropriate remedial action, GNPC and/or the State may then issue a written Notice of Termination to Contractor which shall become effective thirty (30) Days from receipt of said Notice by Contractor unless Contractor has referred the matter to arbitration in accordance with Article 24. In the event that Contractor disputes whether an event specified in Article 23.3 or Article 23.4 has occurred or been remedied, Contractor may, any time up to the effective date of any Notice of Termination refer the dispute to arbitration pursuant to Article 24 hereof. If so referred, GNPC and/or the State may not terminate this Agreement in respect of such event except in accordance with the terms of any resulting arbitration award as provided for in Article 24.

23.6 Upon Termination of this Agreement, all rights of Contractor hereunder shall cease, except for such rights as may at such time have accrued and without prejudice to any obligation or liability imposed or incurred under this Agreement prior to Termination and to such rights and obligations as the Parties may have under applicable law.

23.7 Notwithstanding Termination of this Agreement, Articles 1, 2, 12, 16, 18, 24, 26.1 to 26.4 and Article 26.8 shall survive such Termination. Moreover, any such Termination shall be without prejudice to rights, duties and obligations of any Party that have accrued prior to Termination and notwithstanding such Termination, such provisions of this Agreement as are reasonably necessary for the full enjoyment and enforcement of such accrued rights, duties and obligations shall survive such Termination for the period necessary.

23.8 Upon Termination of this Agreement or in the event of an assignment of all the rights of Contractor, all wells and associated facilities shall be left in a state of good repair in accordance with applicable laws and International Best Oil Field Practice

CONSULTATION, ARBITRATION AND INDEPENDENT EXPERT

- 24.1** Except to the prior fulfilment of any procedures specified in this Agreement to resolve disputes arising hereunder, any dispute arising between the State and GNPC or either of them on one hand and Contractor on the other hand, in relation to or in connection with or arising out of this Agreement, shall be resolved by consultation and negotiation among senior personnel authorized by each Party. In the event that no agreement is reached within thirty (30) Days after the date when any Party to the dispute notifies the other Parties that a dispute exists within the meaning of this Article or such longer period specifically agreed to by the Parties or provided elsewhere in this Agreement, any Party shall have the right subject to Article 24.10 to have such dispute finally settled through international arbitration under the auspices of the International Chamber of Commerce (the "ICC") and adopting the Rules of Arbitration of the International Chamber of Commerce (the "ICC Rules") which ICC Rules are deemed incorporated by reference into this Article 24, save as otherwise provided herein.
- 24.2** The failure or refusal to submit to arbitration in accordance with this Article and/or the seeking of any Pre-Award Attachment by any Party shall be deemed a breach of this Agreement by such Party. In the event of a breach of this Article, each non-breaching Party shall, without prejudice to any other remedies, be entitled to recover from each breaching Party all costs and expenses, including reasonable attorneys' fees, that such non-breaching Party was thereby required to incur.
- 24.3** The arbitration tribunal shall consist of three (3) arbitrators. Each Party to the dispute shall appoint one (1) arbitrator and those arbitrators so appointed by the Parties shall appoint the third arbitrator who shall be designated as the chairman of the arbitration panel. If a Party's arbitrator and/or the chairman arbitrator is/are not appointed within the periods provided in the rules referred to in Article 24.1 above, such Party's arbitrator and/or the chairman arbitrator shall at the request of any Party to the dispute be appointed by the ICC International Court of Arbitration in accordance with the ICC Rules.
- 24.4** No arbitrator or Sole Expert shall be a citizen of the home country of any Party hereto, and shall have no economic interest in or relationship with any Party hereto or any such Party's ultimate parent company.
- 24.5** The seat of arbitration proceedings shall be London, United Kingdom or at such other location as selected unanimously by the Parties. The proceedings shall be conducted in the English language.
- 24.6** If the opinions of the arbitrators are divided on issues put before the tribunal, the decision of the majority of the arbitrators shall be determinative. The award of the tribunal shall be final and binding upon the Parties and enforceable by the Parties. The Parties undertake to carry out any award without delay and waive their right to any form of recourse based on grounds other than those contained in the United Nations Convention on the Recognition and Enforcement of Arbitral Awards of 1958 insofar as such waiver can be validly made. Judgement upon the award may be entered by any

court having jurisdiction thereof or having jurisdiction over the relevant Party or its assets.

24.7 Each of the State, GNPC and Contractor agree that to the extent that such Party, has any right of immunity from any legal proceedings in Ghana, London or elsewhere or enforcement of awards in connection with or arising from terms and conditions of this Agreement, including immunity from service of process, immunity from jurisdiction or judgement or any arbitration tribunal, immunity from execution of judgment or tribunal award, such party hereby expressly and irrevocably waives any such immunity and agrees not to assert or invoke any such rights or claim in any such proceedings provided, however, that the provisions hereof shall not constitute a waiver by any Party of any right that it now or hereafter has to claim sovereign immunity for itself or any of its assets in respect of any effort to confirm, enforce, or execute any Pre-Award Attachment.

24.8 The right to arbitrate disputes arising out of this Agreement shall survive the termination of this Agreement.

24.9 In lieu of resorting to arbitration, where specified in this Agreement and where the Parties unanimously agree, the Parties to a dispute arising under this Agreement, may refer such dispute for determination by a sole expert to be appointed by agreement of the Parties who is a recognised specialist with respect to the subject of the dispute (a "Sole Expert"). In such case, the Parties shall agree on the terms of reference for such proceeding, the schedule of presentation of evidence and testimony of witnesses, and other procedural matters. The decision of the Sole Expert shall be final and binding upon the Parties. The Sole Expert shall have ninety (90) days after receipt of all submissions to decide the case, subject to any extensions mutually agreed to by the Parties to the dispute. Upon failure of the Sole Expert to decide the matter within such time, any Party shall have the right to have such dispute or difference settled through arbitration under the foregoing provisions of this Article 24.

24.10 Each Party to a dispute shall pay its own counsel and other costs; however, costs of the arbitration tribunal shall be allocated in accordance with the decision of the tribunal. The costs and fees of the Sole Expert shall be borne equally by the Parties to the dispute.

24.11 In the event of a matter being referred for resolution under this Article 24; any obligations of the Parties relating specifically and directly to such matter shall (unless otherwise provided by this Agreement) be suspended without liability to any Party, until said matter has been resolved pursuant to this Article 24 and a final arbitration award is made by the arbitral tribunal. All time periods applicable to such obligations in the Agreement shall be extended by the period of the arbitration proceedings; provided that any Petroleum Operations not specifically and directly related to any obligations referred to above shall not be suspended unless the Parties mutually agree otherwise.

24.12 Neither the State and/or GNPC, on the one hand, and Contractor, on the other hand, shall be held liable to the other for any consequential, special, indirect or punitive damages (including loss of profit or loss of production) arising directly or indirectly out of or in relation or in connection to this Agreement, regardless of cause or fault.

JAS OA S A

However, this Article 24.12 shall not be construed as a waiver of a Party's right and remedies to loss or damages, determined to arise out of or in connection with the occurrence of a MAC under this Agreement.

24.13 The Parties hereby agree that the petroleum assets of the Republic of Ghana protected by the Petroleum Revenue Management Act, 2011 (Act 815), diplomatic and consular assets in any jurisdiction and military assets shall not be subject to any proceedings brought against it in connection with this Agreement or any transaction contemplated by this Agreement.

ARTICLE 25
ASSIGNMENT

25.1 This Agreement shall not be assigned by Contractor directly or indirectly in whole or in part, without the prior written consent of GNPC and the Minister, GNPC and/or the Minister may impose such reasonable conditions upon the giving of consent under this Article as may be deemed by GNPC or the Minister appropriate in the circumstances.

25.2 Any assignment of this Agreement shall bind the assignee as a Party to this Agreement to all the terms and conditions hereof and as a condition to the assignment Contractor shall provide GNPC and the Minister with an unconditional undertaking by the assignee to assume all obligations assigned by Contractor under this Agreement.

25.3 Where in consequence of an assignment hereunder Contractor is more than one Contractor Party:

- a) any operating or other agreement made among Contractor Parties and relating to the Petroleum Operations hereunder shall be disclosed to the State (represented by the Minister) and to GNPC and shall not be inconsistent with the provisions of this Agreement;
- b) no change in the scope of the operations may take place without the prior approval in writing of GNPC which approval shall not be unreasonably delayed or withheld; and
- c) the duties and obligations of Contractor hereunder shall be joint and several except those relating to the payment of income tax levied on each such person individually pursuant to Article 12 which shall be the several obligation of each such person.

25.4 GNPC's acquisition of an Additional Interest under Article 2.5 or a Sole Risk Interest pursuant to Article 9 shall not be deemed to be an assignment within the meaning of this Article 25.

25.5 The transfer or disposal by a Contractor Party (the "**Selling Party**") of all or part of its Participating Interest, whether directly or indirectly by assignment, merger, consolidation or sale of stock or other conveyance, other than with or to a wholly-owned Affiliate of such Contractor Party's ultimate parent entity, shall be subject to the following procedure:

- a) Once the Selling Party and a proposed transferee have fully negotiated the final terms and conditions of a transfer, such final terms and conditions shall be promptly disclosed in full detail to GNPC and the State in a notice from the transferor. GNPC shall have the right to acquire the Participating Interest from the transferor on the same terms and conditions agreed to by the proposed transferee if, within thirty (30) Days of transferor's notice, GNPC delivers to the transferor a counter- notice that it accepts the agreed terms and conditions of

JWA   A

the transfer without reservations or conditions. If GNPC does not deliver such counter-notice, the transfer to the proposed transferee may be made, subject to the other provisions of this Agreement and the laws and regulations, under terms and conditions no more favourable to the transferee than those set forth in the notice to GNPC and the State, provided that the transfer shall be concluded within one hundred and eighty (180) Days from the date of the notice plus such reasonable additional period as may be required to secure requisite approvals.

- b) In the event that the Selling Party's proposed transfer of part or all of its Participating Interest involves consideration other than cash or involves other properties included in a wider transaction than the Participating Interest (or part thereof) shall be allocated a reasonable and justifiable cash value by the transferor in any notification to GNPC and the State. GNPC may satisfy the requirements of this Article 25.5 by agreeing to pay such cash value in lieu of the consideration payable in the said proposed transfer. In the event of any dispute between the transferor and GNPC as to the cash value of any consideration paid, GNPC and the Selling Party shall meet at a mutually convenient time and place to attempt to resolve the dispute and to agree upon a cash valuation. In the event such Parties fail to reach agreement within ninety (90) Days from the date on which such notification is received by GNPC or the State from the transferor, Article 24 of this Agreement shall apply.

25.6 Subject to applicable law in effect from time to time, GNPC may assign all or any undivided part of its rights and obligations under this Agreement to any governmental agency or instrumentality of the State, or to any corporate entity controlled by the State that has been duly authorized by appropriate governmental action to hold such right or perform such obligation.

ARTICLE 26
MISCELLANEOUS

26.1 This Agreement shall be governed by and construed in accordance with the laws of the Republic of Ghana in effect from time to time.

26.2 In the event that after the Effective Date any applicable Law, Rule, Decree, or Regulation of the Republic of Ghana ratified treaties, judicial acts or decisions judgments, orders, proclamations, directives, executive orders or other binding sovereign acts of the State is made or amended, that has a material adverse effect on the rights, obligations and benefits arising from the economic, fiscal, including taxation or financial provisions of this Agreement as at the Effective Date ("**MAC**"), the Parties shall, if a Party so requests, meet as soon as possible to negotiate possible modifications to the Agreement as provided under Article 26.3.

26.3 Where a Party considers that a significant change in the circumstances prevailing at the time the Agreement was entered into, has occurred affecting the economic balance of the Agreement, the Party affected hereby shall notify the other Parties in writing of the claimed material adverse effect with a statement of how such claimed effect has affected the economic, fiscal and financial balance of this Agreement. The other Parties shall indicate in writing their response to such notice within a period of three (3) Months' of receipt of such notification and as soon as reasonably practicable thereafter the Parties shall meet to agree to such amendments to this Agreement as are necessary to restore such economic, fiscal and financial balance which existed at the time the Agreement was entered into. In any event, if the Parties have not, within six (6) Months of receipt of the affected Party's written notice pursuant to this Article 26.3 mutually agreed upon a resolution, any Party may then invoke the provisions of Article 24 (without the requirement to submit any dispute for consultation and negotiation among senior authorized personnel of the Parties for a period of thirty (30) days in accordance with Article 24.1). The arbitration panel shall determine (a) whether the claimed change or MAC has occurred and (b) if so, what remedy, if any, is appropriate to restore the economic, fiscal and financial balance of this Agreement as at the date of execution.

26.4 This Agreement may not be modified, amended, altered or supplemented except upon the execution and delivery of a written agreement executed by the Parties. No waiver by any Party of any of its rights hereunder shall be construed or implied, but shall be binding on such Party only if made specifically, expressly and in writing.

26.5 Except for payment obligations arising under the Petroleum Income Tax Law, any Party failing to pay any amounts payable by it under this Agreement (including the provisions of Annex 2) on the respective dates on which such amounts are payable by such Party hereunder shall be obligated to pay interest on such unpaid amounts to the Party to which such amounts are payable. The rate of such interest with respect to each Day of delay during the period of such non-payment shall be at the Specified Rate. Such interest shall accrue from the respective dates such amounts are payable until the amounts are duly paid. The Party to whom any such amount is payable may give notice of non-payment to the Party in default and if such amount is not paid within

fifteen (15) Days after such notice, the Party to which the amount is owed may, in addition to the interest referred to above, and without prejudice to the interest referred to above, seek remedies available pursuant to Article 24.

26.6 (A) The rights and obligations under this Agreement of the State and GNPC on the one hand and Contractor on the other shall be separate and proportional and not joint. This Agreement shall not be construed as creating a partnership or joint venture, nor an association or trust (under any law other than the Petroleum Law), or as authorizing any Party to act as agent, servant or employee for any other Party for any purpose whatsoever except as provided in Article 10.5.

(B) The duties and obligations of each Party constituting Contractor hereunder shall be joint and several and it is recognized that each such Contractor Party shall own and be responsible for its undivided Interest in the rights and obligations of Contractor hereunder; provided, however, that the following payments shall be the separate obligation of and shall be made by each Contractor Party:

- i. Payments under the Petroleum Income Tax Law to Article 12;
- ii. Payments of royalty taken in cash under the provisions of Article 10.1(a); and
- iii. AOE share under the provisions of Article 10.1(d).

26.7 Each Contractor Party hereby agrees and warrants that, in relation to this Agreement and the subject matter hereof, neither: (a) it or any of its Affiliates or employees; nor (b) to the best of its knowledge or belief, any of its consultants, agents, representatives or other persons retained or otherwise engaged by it, has offered or will offer, or has caused or will cause to be offered, or has given or will give, or has caused or will cause to be given, anything of value (including, without limitation, money or gifts) whether directly or indirectly to, or for the use of, any Ghanaian government official, political party or political candidate or to any member of their respective families. The foregoing shall not apply to any facilitating or expediting payment of low value made for the sole purpose of securing the performance of routine government action, provided such payment is permitted by the written laws or regulations of the Republic of Ghana.

If a Party is investigated pursuant to any relevant legislation, guidelines or regulations of any other government having jurisdiction over a Party hereto, which are designed and implemented to deter, prevent and combat bribery or corruption in relation to international business transactions, the other Parties agree in good faith to give all reasonable assistance to the Party being investigated in relation to any reasonable requests (whether general or specific) for information or documentation regarding the subject transaction(s).

Each Party shall defend, indemnify and hold the other Parties harmless from and against any and all claims, damages, losses, liabilities, penalties, fines, costs and other expenses (including legal costs and expenses) resulting from any breach of its foregoing warranty. Each Party agrees that it shall incorporate terms similar to those set out above into all or any contract entered into pursuant to this Agreement and the subject matter thereof.

26.8 Without prejudice to the rights, benefits, liabilities and obligations of the Parties in Articles 26.2, 26.3, 26.4 and 26.5, Contractor shall at all times comply, and shall

ensure that its agents, Subcontractors and Affiliates while in Ghana carrying out activities contemplated by this Agreement and related documents comply, with the laws of the Republic of Ghana during the term of this Agreement to the extent that the Contractor has notice of or, with the exercise of reasonable inquiry, would have knowledge of, such laws. Nothing in this Agreement or any related document shall require the Contractor or any of its agents, Subcontractors or Affiliates to violate the laws of the Republic of Ghana. To the extent any conflict exists between the terms of this Agreement and the laws of the Republic of Ghana, the Contractor shall not be found to be in breach of this Agreement to the extent the Contractor complies with the terms of this Agreement.

26.9 This Agreement shall not take effect unless and until the date on which it has been ratified by the Parliament of Ghana ("Effective Date").

26.10 In construing this Agreement:

- a) no consideration shall be given to the captions of the Articles, Sections, or Subsections which are inserted for convenience in locating the provisions of this Agreement and not as an aid in its construction;
- b) the word "**includes**" and its derivatives means "includes, but is not limited to" and corresponding derivative expressions;
- c) defined term has its defined meaning throughout this Agreement and each annex, and attachment to this Agreement, regardless of whether it appears before or after the place where it is defined;
- d) the plural shall be deemed to include the singular, and vice versa;
- e) each gender shall be deemed to include the other genders;
- f) each annex and attachment to this Agreement is a part of this Agreement, but if there is any conflict or inconsistency between the main body of this Agreement and any annex or attachment, the provisions of the main body of this Agreement shall prevail; and
- g) each reference to an Article, Section or Subsection refers to an Article, Section or Subsection of this Agreement unless expressly otherwise provided.
- h) no reference herein to any law, rule, decree or regulation that contemplates that such law, rule, decree or regulation may be amended, from time to time, shall be construed so as to derogate from the rights of any Party pursuant to Articles 26.2 and 26.3.

26.11 This Agreement comprises the full and complete agreement of the Parties hereto with respect to the subject matter hereof and supersedes and cancels all prior communications, understandings and agreements between the Parties hereto, whether written or oral, expressed or implied.
